COMMENTARY

Section 1: Headline Inflation

The annual inflation rate in October 2018 was 3.6 percent, registering an increase of 0.7 of a percentage point on the September 2018 rate of 2.9 percent. The inflation rates for regions between September 2018 and October 2018 showed that Cities & Towns rose to 4.4 percent from 3.6 percent, Urban Villages went up to 3.4 percent from 2.7 percent and Rural Villages also went up to 2.5 percent from 2.0 percent.

The national Consumer Price Index moved to 106.9 in October 2018, registering an increase of 0.7 percent from 106.2, which was recorded in September 2018. The Cities & Towns' Index realised a rise of 0.8 percent moving from 106.9 in September to 107.8 in October. The Urban Villages' Index advanced from 105.8 to 106.4 registering an increase of 0.6 percent. The Rural Villages' Index rose by 0.6 percent, moving from 105.5 in September to 106.1 in October.

Group indices were mostly moving at a steady pace between September 2018 and October 2018, recording changes of less than 1.0 percent, except the Transport index group which showed an increase of 3.5 percent.

The Transport group index registered an increase of 3.5 percent, from 109.1 in September to 112.9 in October. This was mainly attributed to an increase in the constituent section index of Operation of Personal Transport (5.6 percent) and Purchase of Vehicles (1.7 percent). The increase in Operation of Personal Transport section index was due to the rise in retail pump prices of petrol and diesel by P0.65 and P0.73 per litre respectively, which effected on 15th October 2018.

The Miscellaneous Goods & Services group Index moved from 110.3 in September to 109.8 in October, recording a decline of 0.5 percent. The decline owed to the decrease in the section indices, notably; Insurance (0.6 percent) and Personal Effects Not Elsewhere Classified (0.5 percent).

The Recreation & Culture group Index registered a decrease of 0.4 percent, moving from 104.2 in September to 103.8 in October, The drop was attributed to the decline in the section indices, particularly, Audio Visual, Photographic & Information Processing Equipment (0.5 percent) and Recreational Items & Equipment (0.2 percent).

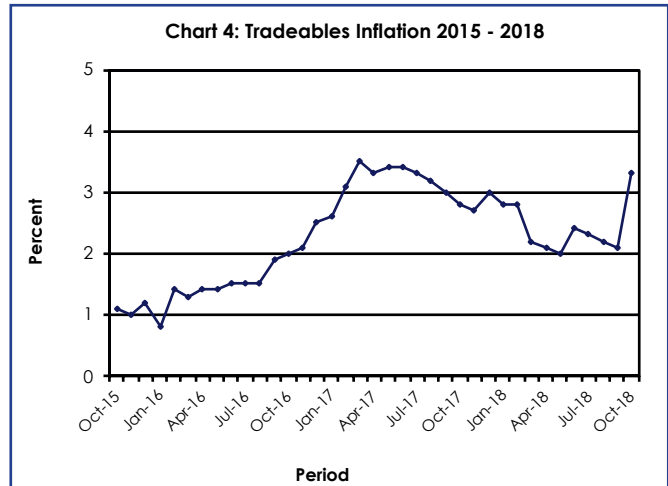

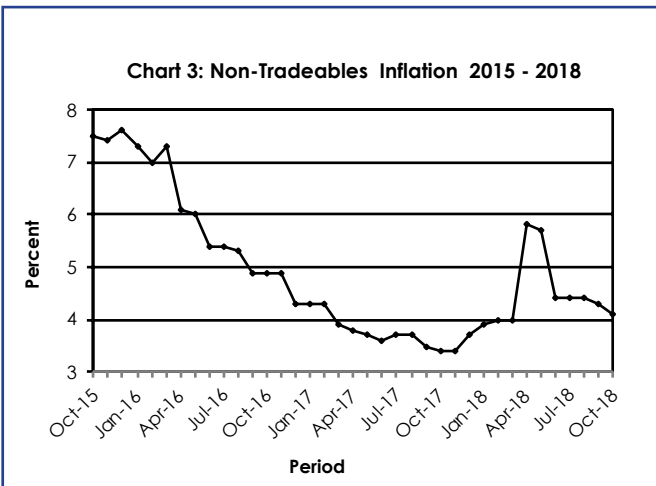

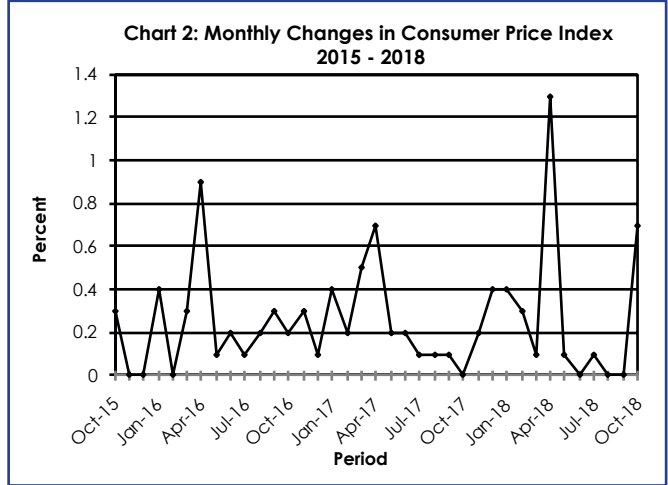

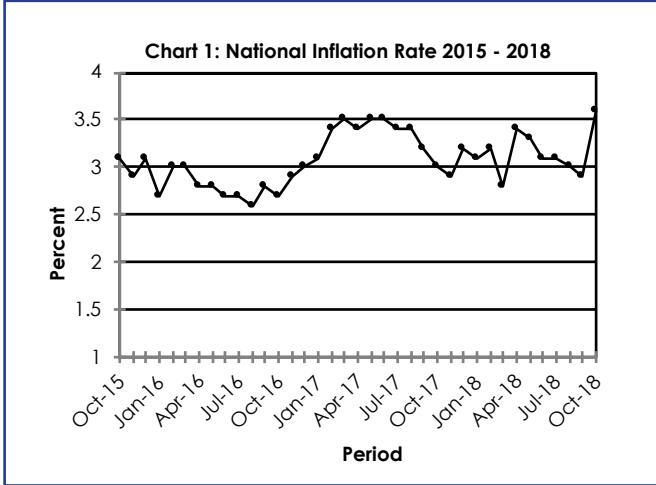

The All-Tradeables index advanced from 105.2 in September to 106.4 in October, registering an increase of 1.1 percent. The Imported Tradeables Index recorded an increase of 1.6 percent, moving from 106.1 in September to 107.8 in October 2018. The Domestic Tradeables Index realized a drop of 0.1 percent over the two months.

All-Tradeables inflation rate was 3.3 percent in October, recording a rise of 1.2 percentage points on the September 2018 rate of 2.1 percent. The Imported Tradeables inflation rate went up from 2.9 percent in September to 4.5 percent in October, The Domestic Tradeables inflation rate went up from 0.6 percent in September to 0.7 percent in October.

Section 2: Core Inflation

The Trimmed Mean Core Inflation rate in October 2018 was 3.7 percent, a rise of 0.8 of a percentage point on the September 2018 rate of 2.9 percent. The Core Inflation rate by exclusion remained unchanged at 1.6 percent, during the period under review.

CPI AREA COVERAGE

Compiled and Prepared by Statistics Botswana, 2016

GLOSSARY

Consumer Price Index (CPI) is an index which measures price changes in goods and services with reference to a base period.

Inflation is a measurement of prices movement of goods and services in a particular country.

Domestic Tradable refers to the goods and services which a country (Botswana) can export to other countries.

Imported Tradable represents the goods and services which a country (Botswana) imports from other countries (trading partners).

Non-Tradable refers to the goods and services which a country cannot either export or import to other countries.

All –Tradable refers to the total of **Domestic** and **Imported tradable**.

Trimmed Mean Core Inflation- attempts to remove 8 percent (by weight) of the commodity sub-groups with the largest price changes at each of the ends of an ordered series of price changes in any given month.

Core inflation by Exclusion is a measure used to remove the volatility inherent in prices that are only adjusted periodically and not always in response to currently prevailing market forces.
