FOREWORD

In an effort to improve on the timeliness of production of statistical information, Statistics Botswana will now be producing quarterly Tourism Statistics Briefs starting with the first quarter of 2016. This brief and subsequent ones do not replace the annual reports, but give quarterly summaries for arrivals and departures. The annual report will continue to be published on yearly basis.

The information contained in this brief is compiled from completed immigration arrival and departure forms covering January to March 2016. The brief contains data from all gazetted points of entry except for Matsiloje and Pandamatenga. Data from the two was not captured in time due to some technicalities. The data will however be included in later releases.

Users who require more information can contact the Directorate of Stakeholder Relations on 3671300. All Statistics Botswana outputs/publications are available on the website at www.statsbots.org.bw and at the Statistics Botswana Information Resource Center (Head-Office, Gaborone).

I sincerely thank all stakeholders involved in the formulation of this report, for their continued support and feedback as we strive to better serve users of Statistics Botswana products and services.

Tourists also include a fraction of those who were In-Transit and those whose Purpose of Visit is recorded as 'Other'. In total there were 288,740 tourists during the first quarter of 2016.

2.1 Tourists from Key African Countries

Key African Countries as discussed here mean African countries that supplied most tourists, volume wise, when compared to other countries in the continent. Key countries may vary from time to time depending on where most tourists came from during a particular period in time.

Table 1 and **Figure 1** show tourists from key African countries during the first quarter of 2016. All these countries are in the SADC Sub-continent. These countries accounted for 84.6 percent (244,370) of total tourists (Appendix 1). South Africa and Zimbabwe provided tourists accounting for 41.3 percent (100,838) and 40.1 percent (97,879) respectively, of total tourists from key African Countries during the quarter. Amongst the four countries considered as Key African Countries that provided tourists during the first quarter of 2016, Zambia had the highest volume of Same Day visitors, accounting for 46.2 percent (8,646) of combined Same Day visitors (18,703) for the four countries. Detailed break-down of tourists by country of residence and type of tourist is displayed in **Appendix 1**.

Table 2 and **Figure 2** give further analysis on the reasons for coming to Botswana by residents of these four key African countries during the first quarter of 2016. Zimbabwe and South Africa follow a similar pattern, with majority of tourists from these countries coming for purposes of Business and Visiting Friends & Relatives. More than half of Zambian tourists, 13, 049 (52.4 percent) came for Business, while 33.5 percent (8, 338) were In-Transit. Tourists from Namibia were mainly In-transit, 62.4 percent (12, 952) of total tourist (20, 752) from that country.

Appendix 2 presents the number of tourists by country of residence and purpose of visit. Most visitors from the African continent came mainly for the purpose of doing business with the exception of four countries (Lesotho, Malawi, Tanzania, Namibia), that had residents coming to Botswana mainly, for a purpose other than Business. Most tourists from Namibia and Tanzania were In-Transit, at 62.4 percent (12, 952) of total tourists (20, 752) from Namibia and 40.2 percent (270) of total tourists(672) from Tanzania.

2.2 Tourists from Key Overseas Countries

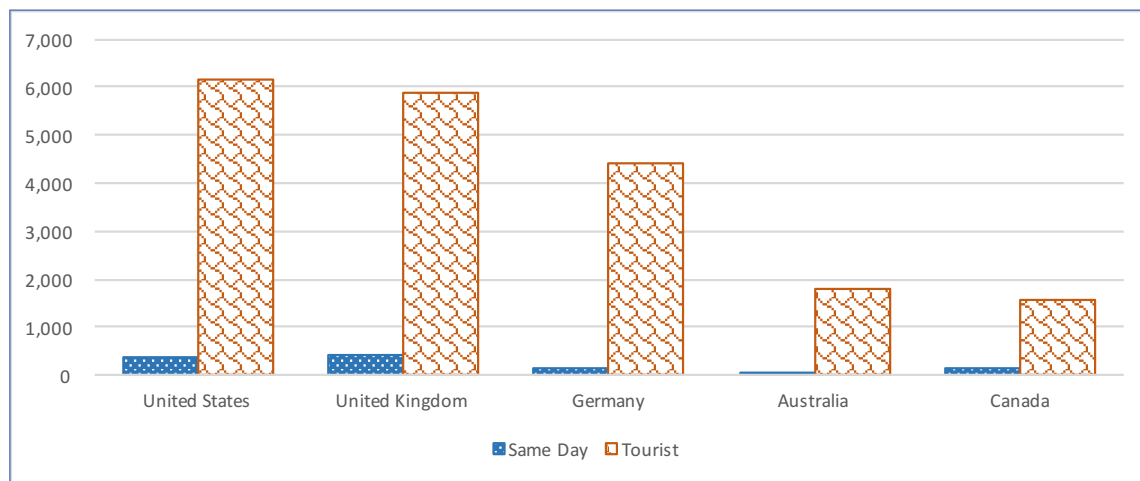

The definition of key overseas countries in provision of tourists to Botswana, as used for African countries in Section 2.1 is used here in the same manner for overseas countries.

Table 3 and **Figure 3**, which are based on Appendix 1, give information on key overseas source countries for tourists. It can be observed from Table 3 and the associated figure that the United States of America and the United Kingdom were key overseas sources of tourists. The two countries jointly supplied 61.2 percent (12, 826) of tourists from key overseas countries for both overnight and same-day visitors. Germany was also a significant source of tourists, having supplied 21.9 percent (4,583) of key overseas countries tourists during the first quarter of 2016. Australia and Canada supplied 8.8 percent (1, 849) and 8.2 percent (1, 716) respectively of tourist arrivals from key overseas countries.

2.4 Tourists by Mode of Arrival

Discussions by mode of arrival are based on Table 5. Information is displayed by tourists arriving by air and those arriving by road. Percentage distribution for airports are calculated as a percentage of total tourists arriving by air. With regard to those arriving by road, information is displayed by individual countries sharing the border with Botswana as well as borders through which tourists entered the country.

Percentages at country level are calculated as a percentage of total tourists entering the country by road while those at border level are calculated as a percentage of total tourists entering the country by road through borders with a specific country.

Tourists arriving in Botswana during the first quarter of 2016 travelled by road mostly, 92.2 percent (266, 223) of total tourists (288, 740). Tourists arriving from South Africa by road constituted 43.0 percent (114, 588) of total tourists arriving by road (266, 223) during the quarter. Of all 114, 588 tourists arriving from South Africa by road, 35.9 percent (41, 155) arrived through Tlokweng Border post, followed by those coming through Martin's Drift and Pioneer Border posts with 21.3 percent (24, 409) and 19.2 percent (22, 055) respectively.

Tourists arriving through borders with Zimbabwe accounted for 37.3 percent (99, 388) of total tourist arrivals by road during the quarter. Most of these arrived through Ramokgwebana Border post, 75.4 percent (74, 934), while those arriving through Kazungula Road accounted for 21.3 percent (21, 165) of total tourists arriving through borders with Zimbabwe.

Arrival of tourists through borders with Namibia and Zambia respectively accounted for 9.9 percent (26, 483) and 9.7 percent (25, 765) of tourist arrivals by road during the quarter.

Air transport constituted 7.8 percent (22,517) of total tourists (288, 740) during 2016 first quarter. The majority of tourists arriving by Air came in through Sir Seretse Khama Airport, 67.9 percent (15, 283).

3.0 Overall Travelers (Arrivals and Departures)

This section deals with all travelers, inbound and outbound during the first quarter of 2016.

3.1 Total Arrivals

Appendix 3 and 4 show that the country received a total of 484, 717 arrivals. The gender distribution for arrivals shows that males and females accounted for 65.4 percent (317, 194) and 34.6 percent (167, 523) respectively.

Table 7 gives comparison of arrivals by month and quarter from the first quarter of 2010 to the first quarter of 2016. Total arrivals during 2016 first quarter was 484, 717, giving a decrease of 1.4 percent (6, 568) when compared to 491, 285 arrivals recorded during 2015 first quarter.

When compared to the last quarter of 2015, total arrivals during 2016 first quarter decreased by 51.0 percent (247, 083) from 731, 800 arrivals recorded during 2015 fourth quarter to 484, 717 recorded during the quarter under review. Some of the reduction can be attributed to the fact that figures for this quarter do not include data from Matsiloje and Pandamatenga Border Posts.
