PREFACE

This annual report presents the latest official statistics on total arrivals, total departures, and visitor trends for non-citizens for the year 2023. The publication provides critical insights into the dynamics of inbound tourism, a key sector for Botswana's economic growth and development.

The data used in this publication were compiled from administrative records obtained from immigration arrival and departure forms. Completing these forms is a legal requirement for all non-citizen travellers at officially designated ports of entry and exit. This report is produced in accordance with international standards and definitions recommended by UN Tourism and the United Nations Statistical Division (UNSD) to ensure the data's comparability and reliability.

Statistics Botswana extends its sincere gratitude to the Department of Immigration and Citizenship for its role in providing the core administrative data essential for compiling the report, and to all other stakeholders whose support is invaluable to its statistical work.

For further details, contact the Directorate of Stakeholder Relations at +267 367 1300. This publication, along with all other Statistics Botswana publications, is available on the official website at www.statsbots.org.bw and at the Statistics Botswana Information Resource Centre in Gaborone, located at the Head Office.

EXECUTIVE SUMMARY

The year 2023 marked a pivotal phase of recovery for Botswana's tourism sector, as it was the first full year in which nearly all ports of entry and exit operated following the relaxation of COVID-19 restrictions. This full reopening significantly enhanced access for international travellers and laid a solid foundation for the sector's rebound.

During the year, a total of 1,874,766 non-citizen arrivals and 1,908,139 departures were recorded. Of the arrivals, 1,182,979 were international visitors (tourists), accounting for 63.1 percent of all non-citizen arrivals.

Tourists comprised both overnight and same-day visitors, with overnight stays dominating at 92.9 percent (1,099,113), while same-day visits represented 7.1 percent (83,866). South Africa emerged as the leading source market, contributing 33.3 percent (394,059) of all tourists, followed by Zimbabwe at 22.2 percent (262,920). Visitors from the top ten overseas countries accounted for 16.8 percent (198,615), while visitors from the top ten SADC countries together represented 77.1 percent (912,260).

Holiday/Leisure tourists accounted for 26.4 percent (312,569), while those In-Transit and Visiting Friends and Relatives (VFR) represented 26.1 percent (309,007) and 22.5 percent (266,284), respectively. Tourists who entered the country by air represented 9.1 percent (107,977), while 90.9 percent (1,074,765) came by road. Among those tourists who came by air, Sir Seretse Khama International Airport accounted for 49.7 percent (53,636), while those who entered through Maun Airport represented 36.5 percent (39,374).

December was the most popular month of arrival for tourists in 2023, with 10.7 percent (126,525), August and September followed at 9.9 percent (116,621) and 9.3 percent (109,427), respectively. The majority of tourists were in the age range of 40 to 44, accounting for 14.0 percent (165,985) of total tourists during the year. Kazungula Bridge was the busiest port of entry in facilitating tourist arrivals, having received 12.0 percent (141,991).

CHAPTER 1: INTRODUCTION

1.1 Introduction

This annual publication provides statistical indicators on arrivals and departures for the year 2023. The report details visitor and non-visitor arrivals categorised by country or region of nationality, residence, purpose of entry, mode of travel, port of entry and exit, as well as sex and age distribution. The data is sourced from the Department of Immigration and Citizenship (DIC) arrival and departure forms, completed by non-citizens at all officially designated ports of entry and exit.

1.1.1 Arrangement of the Report

This report is categorised into two distinct segments. The first segment constitutes **Chapter 2**, which provides a detailed analysis of Botswana visitors. The second segment, constituting **Chapter 3**, expands the scope to encompass analysis of all travellers entering and departing the country. The methodological framework, including data sources, compilation methods, and definitions of key terms, is discussed in **Chapter 4**. Finally, **Chapter 5** comprises the appendices, which contain more comprehensive details underpinning the abridged tables and figures presented in the main body of the report.

1.1.2 Limitations of the Report

The focus of the collected data is on non-citizens, encompassing temporary residents and foreign nationals. This provides insight into Botswana's inbound tourism sector. However, the unavailability of data on the arrivals and departures of Botswana citizens limits the analysis from shedding light on the country's outbound traveler flows.

A further methodological constraint arises from the concurrent operation of automated and non-automated border posts. As travellers may enter through an automated post and depart through a non-automated one, or vice versa, this makes it difficult to calculate their precise length of stay as data from these two systems is not easy to reconcile.

CHAPTER 2: TOURISTS

This chapter presents an analysis of international visitors into the country in 2023, categorised into two groups: overnight visitors (tourists) and same-day visitors (excursionists). The analysis provides a comprehensive statistical breakdown by country and region of residence, purpose of visit, mode of travel, month of entry, port of entry, and key demographic characteristics.

In compiling this report, half of all in-transit travellers are classified as visitors. This approach acknowledges the economic contribution of a portion of these travellers, who often incur expenditure within the country during transit—whether through overnight accommodation or ancillary expenses. As a result, the visitor statistics presented in this chapter incorporate 50 percent of all recorded in-transit travellers.

2.1. Tourists by Country and Region of Residence

Appendices 1 and **2** present an analysis of tourist arrivals, categorised by country of residence. Appendix 1 shows figures for both overnight and same-day tourists by country of residence and associated percentage distribution. **Appendix 2** further classifies tourists by their country of residence and stated purpose of visit.

During 2023, a total of 1,182,979 tourists came into Botswana, 92.9 percent (1,099,113) were overnight visitors, while 7.1 percent (83,866) were same-day visitors. **Appendix 1** shows that most visitors resided in South Africa, which contributed 33.3 percent (394,059), while Zimbabwe residents accounted for 22.2 percent (262,920) of total visitors.

2.2. Top Ten Overseas Countries

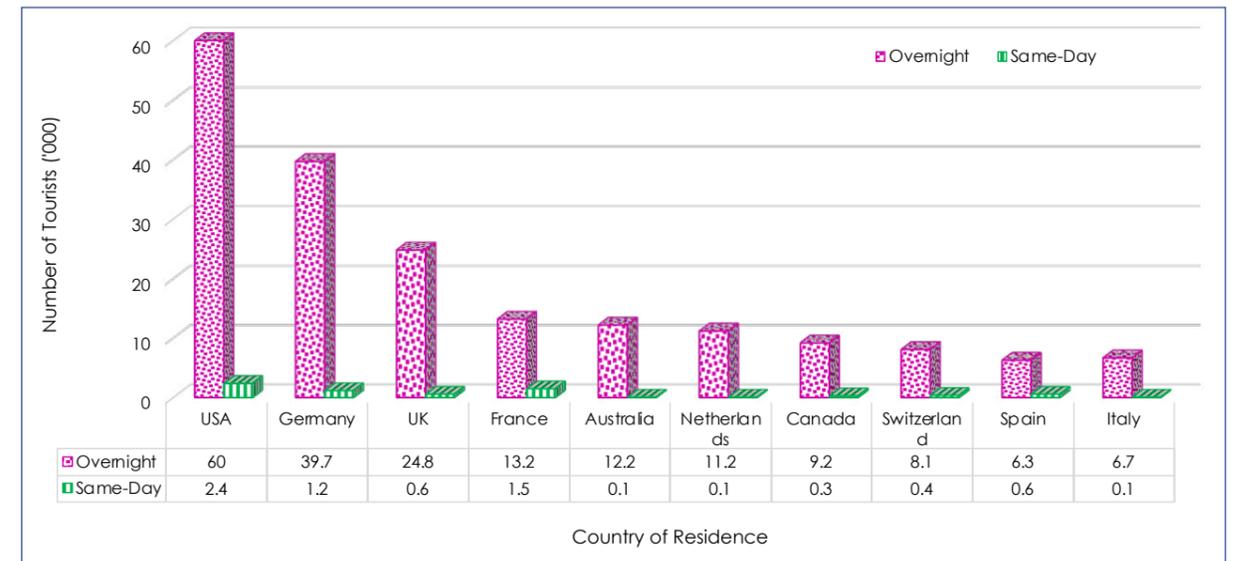

Table 1, which is based on **Appendix 1**, shows that the top ten overseas countries of residence recorded 198,615 tourists, accounting for 16.8 percent of total tourists. Of the 198,615 tourists, 31.4 percent (62,384) reside in the United States of America, followed by those residing in Germany and the United Kingdom at 20.6 percent (40,944) and 12.8 percent (25,348), respectively. Overnight tourists from all the top ten overseas countries make up more than 90 percent of the total tourists from those countries except France with 89.6 percent.

Table 1: Top Ten Overseas Countries of Residence by Type, 2023

Country of Residence	Tourists		Total	
	Overnight	Same-Day	Total	Percent
United States	59,952	2,432	62,384	31.4
Germany	39,718	1,226	40,944	20.6
United Kingdom	24,784	564	25,348	12.8
France	13,215	1,526	14,741	7.4
Australia	12,157	145	12,302	6.2
Netherlands	11,160	87	11,247	5.7
Canada	9,246	285	9,531	4.8
Switzerland	8,073	375	8,448	4.3
Spain	6,265	594	6,859	3.5
Italy	6,662	149	6,811	3.4
Total	191,232	7,383	198,615	100
All Other Countries	888,277	97,324	984,364	
Grand Total	1,099,113	83,866	1,182,979	

Figure 1, derived from Table 1 and Appendix 1, illustrates that the majority of overnight tourists from the top ten overseas countries mainly resided in the United States of America, followed by Germany and the United Kingdom.

Figure 1: Distribution of Tourists from Top Ten Overseas Countries, 2023 in Thousands

2.3 Top Ten SADC Countries

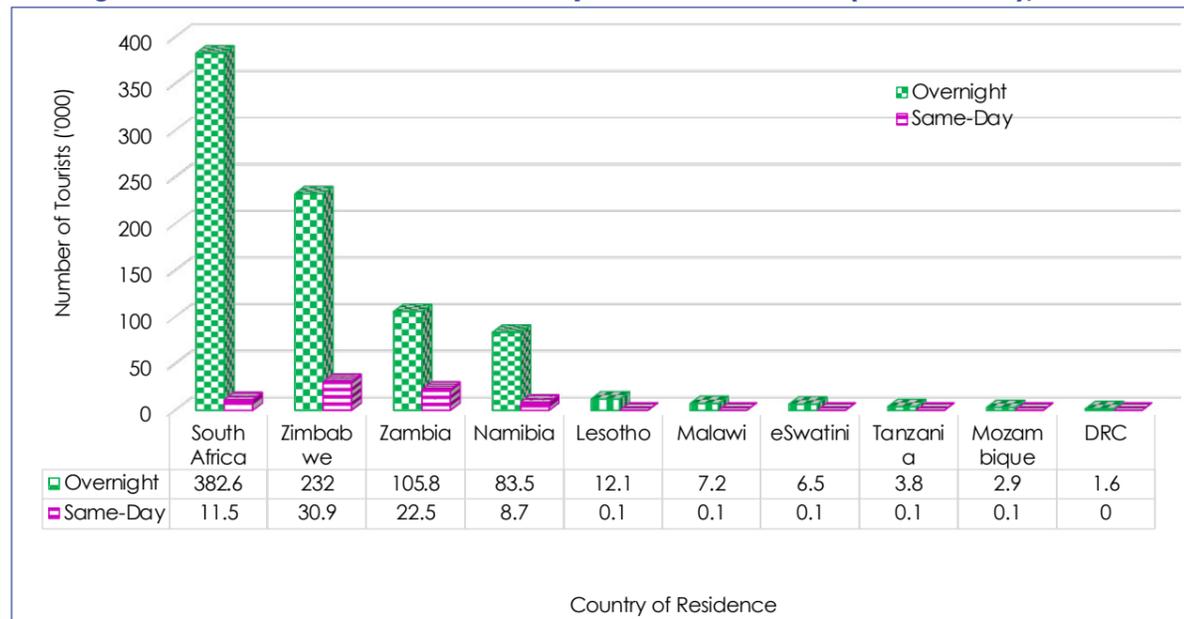

Table 2 and its corresponding visual in **Figure 2** present the top ten source countries for tourist arrivals from within the Southern African Development Community (SADC) region. Collectively, these ten countries accounted for 77.1 percent (912,260) of all tourist arrivals. Among these countries, South Africa was the largest contributor, accounting for 43.2 percent (394,059) of arrivals from this group. Zimbabwe followed at 28.8 percent (262,920) and Zambia at 14.1 percent (128,287). Namibia represented a share of 10.1 percent (92,231). The remaining countries each contributed less than 2.0 percent, as detailed in **Figure 2** and **Table 2**.

Overnight tourists constituted at least 90.0 percent of total arrivals from each of the top ten SADC source countries, with the exception of Zambia and Zimbabwe. In contrast, same-day visitors made up notable shares of arrivals from these two countries, accounting for 17.5 percent (22,501) of Zambian arrivals and 11.7 percent (30,872) of Zimbabwean arrivals, respectively.

Table 2: Top Ten SADC Countries by Type of Tourist and Country of Residence, 2023

Country of Residence	Tourists		Total	
	Overnight	Same-Day	Number	Percent
South Africa	382,601	11,458	394,059	43.2
Zimbabwe	232,048	30,872	262,920	28.8
Zambia	105,786	22,501	128,287	14.1
Namibia	83,504	8,727	92,231	10.1
Lesotho	12,145	126	12,271	1.3
Malawi	7,160	147	7,307	0.8
eSwatini	6,535	105	6,640	0.7
United Republic of Tanzania	3,821	108	3,929	0.4

Democratic Republic of the Congo	1,596	19	1,615	0.2
Total	838,099	74,161	912,260	100
All other Countries	261,014	9,705	270,719	
Grand Total	1,099,113	83,866	1,182,979	

Figure 2: Distribution of Tourists from Top Ten SADC Countries (in thousands), 2023

2.4. Purpose of Visit

Table 3 details the number of visitors categorised by purpose and type of visit, alongside the corresponding percentage distributions. Holiday/Leisure was the primary purpose of visit, accounting for 26.4 percent (312,569) of total tourists. This was followed by In-Transit travellers at 26.1 percent (309,007) and Visiting Friends and Relatives (VFR) at 22.5 percent (266,284). Business travel constituted 17.8 percent (210,345) of tourists. A further 7.2 percent (84,774) of tourists travelled for miscellaneous purposes, including religious, sporting, medical, and shopping activities; these are aggregated within a single classification labelled 'Other'.

Table 3: Distribution of Tourists by Type and Purpose of Entry, 2023

Purpose of Visit	Overnight		Same-Day		Total	
	Number	%	Number	%	Number	%
Holiday/Leisure	305,000	27.7	7,569	9.0	312,569	26.4
In Transit	298,526	27.2	10,481	12.5	309,007	26.1
VFR	262,721	23.9	3,563	4.2	266,284	22.5
Business	187,946	17.1	22,399	26.7	210,345	17.8
Other	44,920	4.1	39,854	47.5	84,774	7.2
Total	1,099,113	100	83,866	100	1,182,979	100

2.5. Tourists by Mode of Arrival

Table 4 presents tourist arrivals by mode of travel and purpose of visit. Entry into Botswana can be facilitated through three modes of transport: road, rail, and air. Percentage distributions for the purpose of visit by each airport are calculated as a percentage of the total of each purpose of visit by air. In contrast, percentages for the purpose of visit by air, rail and road are calculated as a percentage of the total tourists.

The data indicate that road transport was the predominant mode of entry, accounting for 90.9 percent (1,074,765) of all tourist arrivals. Arrivals by air constituted 9.1 percent (107,977), while rail travel was negligible at less than a percentage (215).

Among arrivals by air, Sir Seretse Khama International (SSKI) Airport was the primary port of entry, handling 49.7 percent (53,636) of all air travellers. Maun Airport followed at 36.5 percent (39,374) and Kasane Airport at 11.7 percent (12,615).

A granular analysis of air travellers by purpose of visit shows the following distinct port utilisation patterns:

Visiting Friends and Relatives (VFR): The majority (94.1 percent or 12,299) of VFR tourists arriving by air used SSKI Airport.

Business Travel: Business travellers were predominantly processed through SSKI Airport (90.6 percent or 35,220).

Holiday/Leisure: The majority of holiday/leisure (67.3 percent or 35,701) arriving by air used Maun Airport, with a further 19.3 percent (10,245) using Kasane Airport.

In-Transit: Kasane Airport was the principal entry point for in-transit air travellers, accounting for 86.6 percent (1,521) of this category.

Other Purposes: Tourists travelling for other purposes (e.g., religious, medical) also primarily arrived via SSKI Airport (72.6 percent or 887).

Table 4: Distribution of Tourists by Mode of Travel and Purpose of Entry, 2023

Mode of Travel	VFR		Holiday/Leisure		Business		In Transit		Other		Total	
	Number	%	Number	%	Number	%	Number	%	Number	%	Number	%
Air	13,075	4.9	53,034	17.00	38,890	18.5	1,757	0.6	1,221	1.4	107,977	9.1

"Other" = these are processed at the central control office and are mainly extensions without work and resident permit

2.6. Tourists by Port of Entry

Appendix 2A shows the number of tourist arrivals by port of entry and purpose of visit. The data indicates that Kazungula Bridge Border Post was the busiest port, facilitating 12.0 percent (141,991) of all tourist arrivals. It was closely followed by Tlokweng Border Post, which accounted for 11.8 percent (139,869). Sir Seretse Khama International Airport was the sole airport featured among the ten busiest ports of entry; all others in the top ten were land border posts. Arrivals through Sir Seretse Khama International Airport constituted 4.5 percent (53,636) of the total tourist volume.

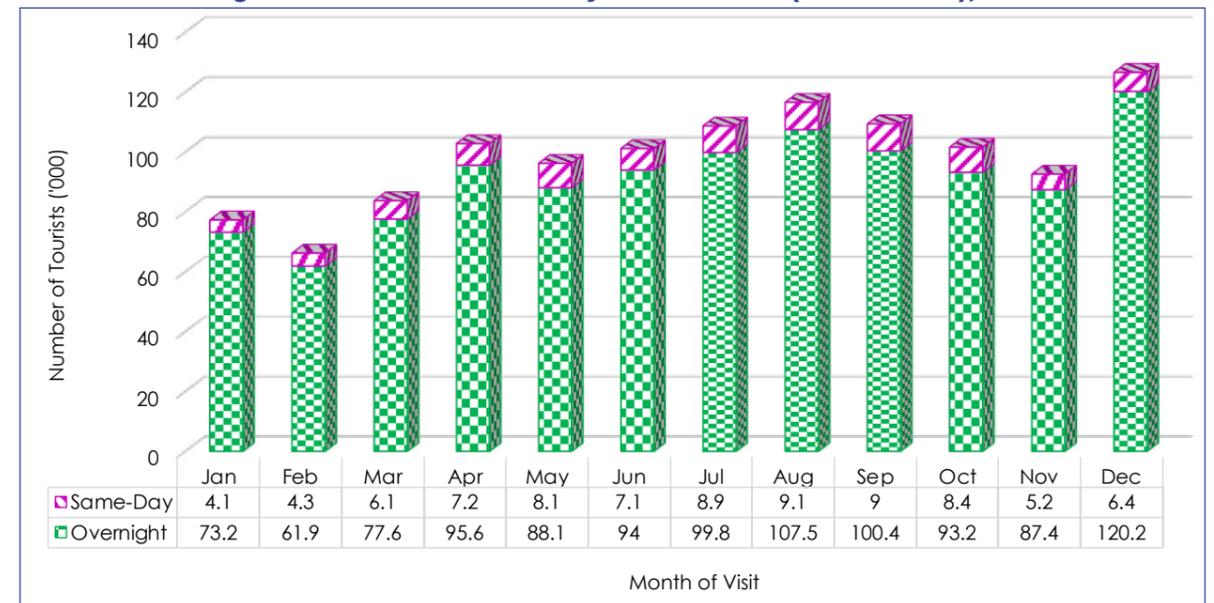

2.7. Tourists by Month of Visit

Figure 3 and Table 5 display tourist arrivals by month of visit and purpose of visit. The figure presents both same-day visitors and overnight visitors, but discussions are based on total monthly tourist arrivals. December recorded the highest number of tourists at 10.7 percent (126,525), followed by August and September with 9.9 percent (116,621) and 9.3 percent (109,427), respectively. The month that recorded the least number of tourists is February at 5.6 percent (66,210).

Table 5: Distribution of Tourists by Month and Purpose of Entry, 2023

Month of Travel	Purpose of Visit					Total	
	VFR	Holiday/Leisure	Business	In Transit	Other	Number	Percent
January	18,612	12,555	15,369	26,923	3,865	77,324	6.5

Figure 3: Number of Tourists by Month of Visit (in thousands), 2023

2.8. Tourists by Age Distribution

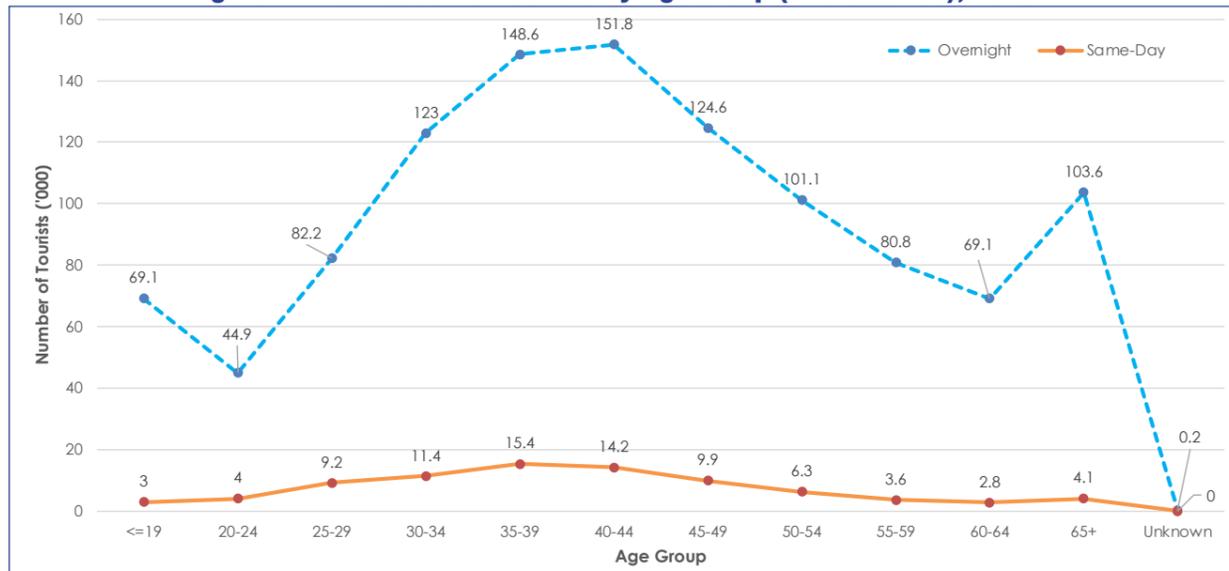

Table 6 and its corresponding **Figure 4** present the distribution of tourist arrivals by age group, disaggregated into overnight and same-day visitors.

In 2023, the largest share of tourists fell within the 40-44 age bracket, accounting for 14.0 percent (165,985) of tourist arrivals. This was followed by the 35-39 age group at 13.9 percent (164,022). Conversely, the cohort with the smallest volume of tourists was the 20-24 age group, representing 4.1 percent (48,896) of the tourist arrivals. A negligible number of 222 (<0.1 percent) were recorded with an unspecified age.

Table 6: Number of Tourists by Age Group and Type of Tourist, 2023

Age Group	Overnight		Same-Day		Total	
	Number	Percent	Number	Percent	Number	Percent
<=19	69,076	6.3	3,017	3.6	72,093	6.1

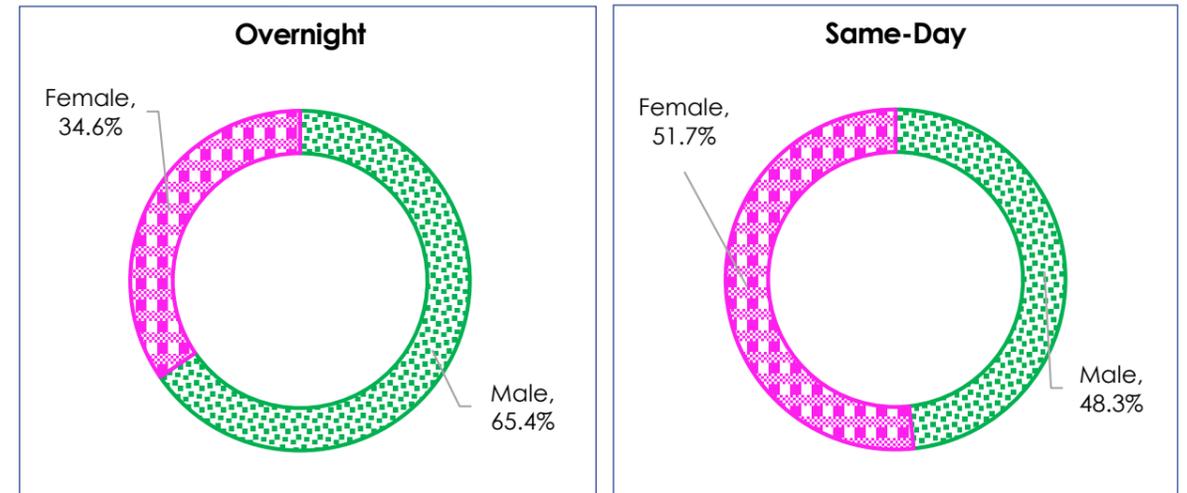

Figure 4: Distribution of Tourists by Age Group (in thousands), 2023

2.9. Tourists by Sex Distribution

An analysis of the sex distribution indicates a predominance of males over females for overnight visitors and predominance of females over males for same-day visitors. Males accounted for 65.4 percent (718,275) while females accounted for 34.6 percent (380,838) of overnight visitor arrivals. Females constituted 51.7 percent (43,317) while males constituted 48.3 percent (40,549) of same-day visitors, as illustrated in **Figure 5**.

Figure 5: Percentage Distribution of Tourists by Sex, 2023

2.10. Tourists by Sex and Purpose of Entry

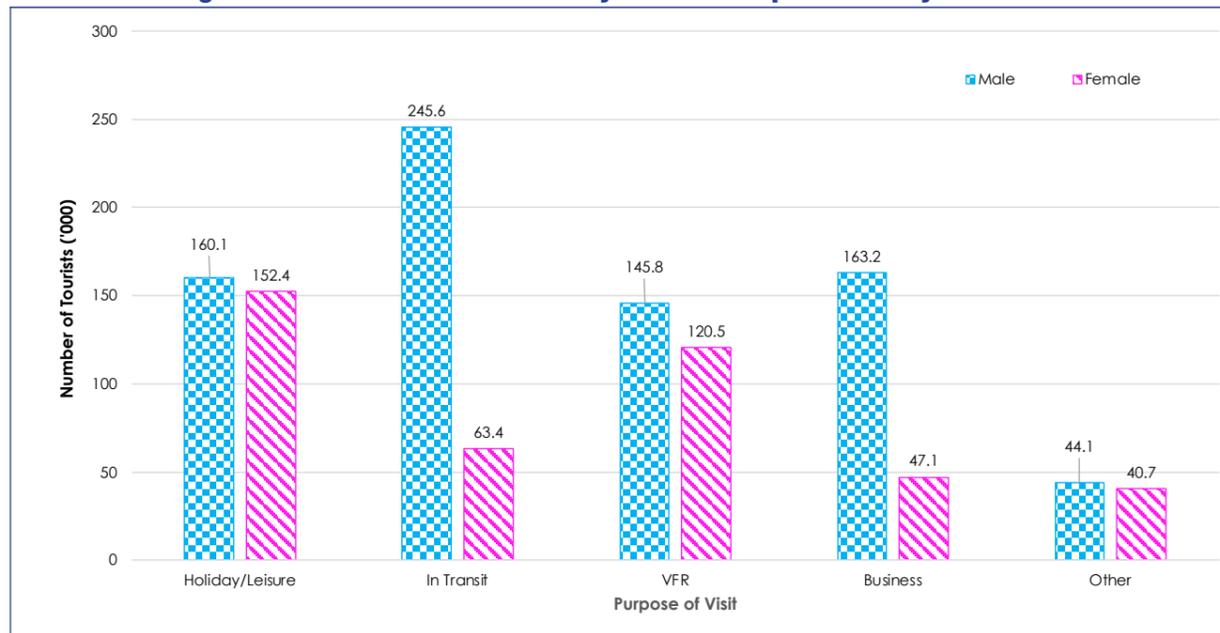

Table 7 provides a profile of tourist arrivals disaggregated by sex and purpose of entry. The data shows that male tourists accounted for 64.1 percent (758,824) of total arrivals, compared to 35.9 percent (424,155) for females.

The purpose of entry differed markedly between male and female tourists. Among male arrivals, in-transit travel was the leading purpose, accounting for 32.4 percent (245,584), followed by business at 21.5 percent (163,237) and holiday/leisure at 21.1 percent (160,134). By contrast, the majority of female tourists visited for holiday/leisure, which comprised 35.9 percent (152,435) of their total arrivals, while visiting friends and relatives was the second most common purpose, representing 28.4 percent (120,470).

Table 7: Number of Tourists by Sex and Purpose of Entry, 2023

Purpose of Entry	Male		Female		Total	
	Number	Percent	Number	Percent	Number	Percent
Total	758,824	64.1	424,155	35.9	1,182,979	100

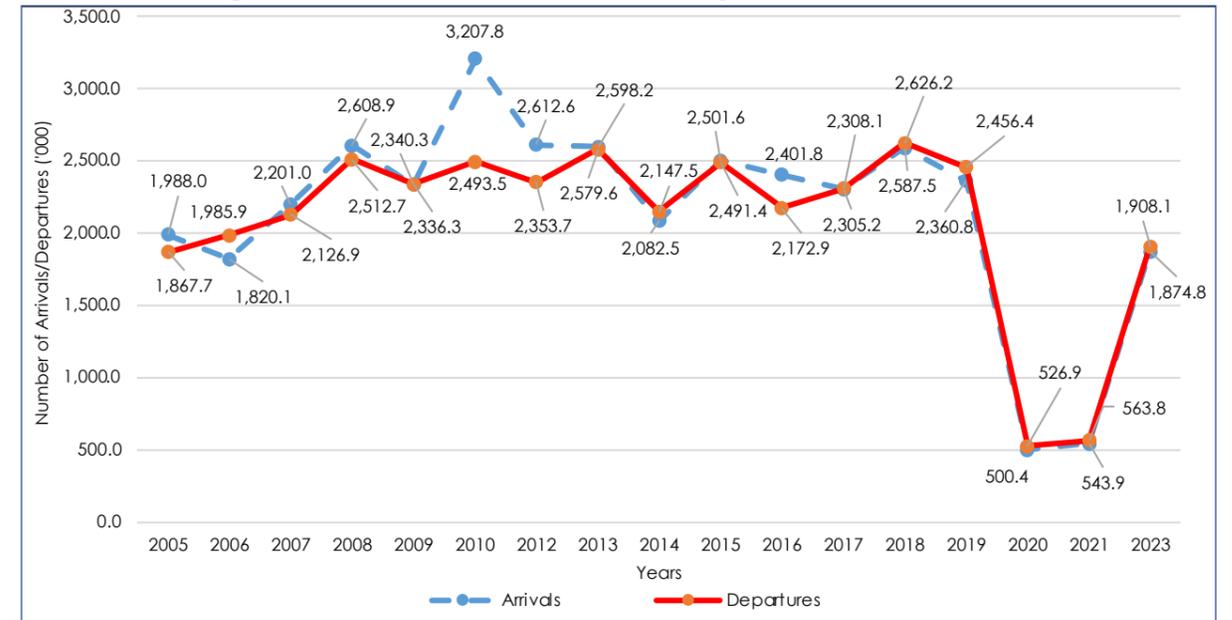

Figure 6: Distribution of Tourists by Sex and Purpose of Entry – 2023

CHAPTER 3: ALL TRAVELERS

This section analyses the total volume of arrivals and departures for the period under review. According to **Appendix 3** and **Appendix 16**, Botswana recorded a total of 1,874,766 arrivals and 1,908,139 departures in 2023. **Figure 7** shows the trend of arrivals and departures from 2005 to 2023.

Figure 7: Total Number of Arrivals and Departures from 2005 to 2023

NB: The 2011 figures are not available while the 2022 figures will be published at a later date

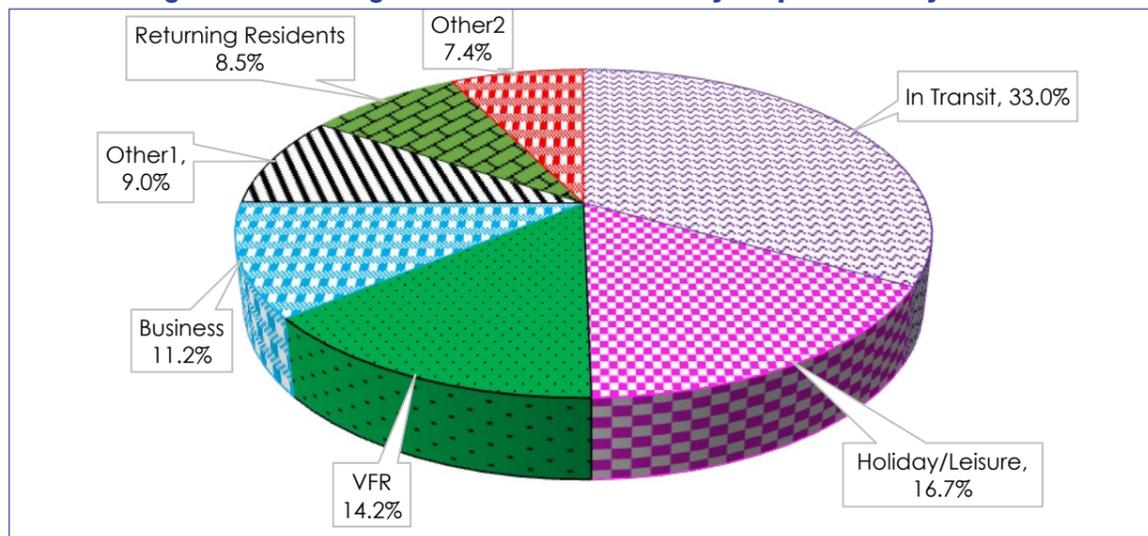

3.1. Purpose of Entry

Appendix 6 shows the number of arrivals by country of residence and purpose of entry, with **Figure 8** illustrating the corresponding percentage distribution.

The predominant purpose of entry was In-Transit, accounting for 33.0 percent (618,014) of total arrivals. This was followed by Holiday/Leisure travellers at 16.7 percent (312,569) and a category designated as 'Other1' at 15.9 percent (298,630).

As detailed in **Figure 8**, the 'Other1' classification aggregates arrivals for purposes not explicitly itemised on the embarkation form, including shopping, religious activities, conferencing, sports, and medical reasons. A separate category, 'Other2', comprises arrivals such as students, prospective residents, diplomats, employment seekers, and employed individuals.

Figure 8: Percentage Distribution of Arrivals by Purpose of Entry – 2023

Note:
Other1 = Arrivals for Shopping, Religious activities, Conferencing, Sports & Medical reasons.
Other2 = Arrivals for students, prospective residents, diplomats, employment seekers, the employed and those whose purpose of arrival was not stated and thus "Unknown".

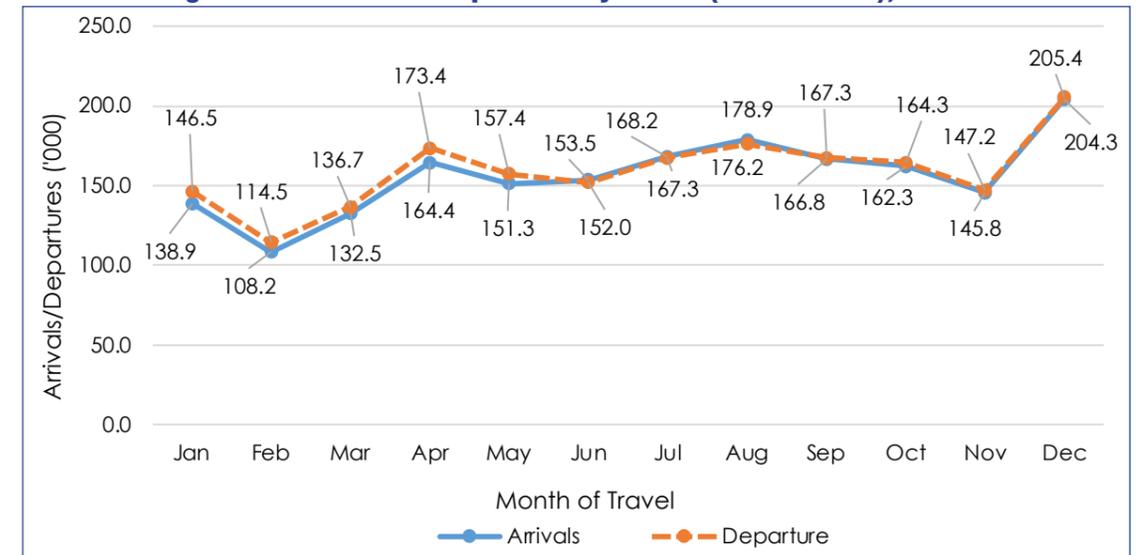

3.2. Month of Arrival and Departure

Appendices 13 and 16 provide a monthly breakdown of arrivals and departures by border post, respectively. The data indicates a strong positive correlation in seasonal patterns between arrivals and departures, with peak activity recorded in December and the lowest volume occurring in February.

The highest volume of arrivals was recorded in December, with 204,252 arrivals, constituting 10.9 percent of the annual total. This was followed by August at 9.5 percent (178,900) of arrivals and July at 9.0 percent (168,123) of arrivals. Conversely, February registered the lowest number of arrivals accounting for 5.8 percent (108,186) of the total arrivals.

A similar trend was observed for departures. December recorded the highest number at 205,368, representing 10.8 percent of total departures. In line with the arrival pattern, February registered the lowest figure, with 114,519 departures, accounting for 6.0 percent of the total.

Figure 9: Arrivals and Departures by Month (in thousands), 2023

3.3 Mode of Travel

Table 8 presents the number of arrivals and departures, categorised by mode of travel at the port of entry or exit.

Road transport was the predominant mode of travel, accounting for 93.3 percent (1,749,258) of all arrivals and 93.0 percent (1,775,459) of all departures. The Ramokgwebana Border Post was the busiest road border post, processing 16.4 percent (287,603) of all road arrivals and 15.6 percent (276,778) of all road departures.

Air travel accounted for 6.7 percent (125,059) of total arrivals and 6.9 percent (132,119) of total departures. Sir Seretse Khama International Airport emerged as the principal gateway, handling 51.4 percent (64,252) of all air arrivals and 49.2 percent (64,952) of air departures. Maun Airport ranked second, facilitating 34.9 percent (43,615) of arrivals by air and 36.5 percent (48,253) of air departures.

Total	1,874,766	100	1,908,139	100

3.4 Age Group

Figure 10, derived from Appendix 7, depicts the distribution of arrivals by age group and sex. The 40–44-year-old cohort recorded the highest number of arrivals, totaling 282,209, or 15.1 percent of the overall figure.

The figure also highlights distinct patterns in sex distribution across age groups. Disparities between male and female arrivals are relatively small among the youngest (≤ 19 and 20–24) and oldest (60–64 and 65+) age groups. By contrast, differences are more pronounced among the middle-aged cohorts (35–39, 40–44, and 45–49). Overall, male arrivals exceeded female arrivals across all age groups.

Figure 10: Distribution of Arrivals by Age Group and Sex (in thousands), 2023

3.5 Nationality

Appendix 3 indicates that the majority of arrivals were nationals of the Southern African Development Community (SADC) region, constituting 82.3 percent (1,542,981) of the total arrivals. Arrivals from Europe represented the second largest regional share at 9.1 percent (171,541). A further breakdown shows that Zimbabwean nationals accounted for the largest proportion of all arrivals at 30.7 percent (575,264), followed by South African nationals at 27.7 percent (519,416). Regarding overseas (non-African) nationals, arrivals from the United States of America topped the list, accounting for 3.6 percent (68,454) of the total. This was followed by nationals of Germany and the United Kingdom, who represented 2.6 percent (49,506) and 1.7 percent (32,125) of all arrivals, respectively.

3.6 Border Posts

The following analysis of arrivals and departures by border post is derived from **Appendices 13** and **16**. Ramokgwebana Border Post was the busiest port of entry, processing 15.3 percent (287,603) of all arrivals. It was followed by Kazungula Bridge and Tlokweng Border Post, which accounted for 12.2 percent (229,342) and 11.8 percent (220,422) of total arrivals, respectively.

Martins Drift was the most used port of exit, as it facilitated 14.9 percent (285,242) of all departures. Ramokgwebana and Kazungula Bridge accounted for 14.5 percent (276,778) and 11.0 percent (210,007) of departures, respectively.

Figure 11, based on Appendices 13 and 16, provides a graphical representation of the top ten busiest border posts, ranked by the volume of traveller movements processed at each port of entry and exit.

Figure 11: Ten Busiest Border Posts (in thousands), 2023

CHAPTER 4: TECHNICAL NOTES

This section outlines the methodological framework underpinning the production of the tourism statistics presented in this report. It details the primary data sources, describes the procedures for data processing and compilation, and provides definitions of the key terms used. The information is intended to provide users with a clear understanding of the data sources, the methods used in its aggregation, and the precise meaning of the terminology applied throughout the report.

4.1. Data Sources and Methodology

The data used in the production of this report are sourced from the administrative records of the Department of Immigration and Citizenship (DIC). Data on international travellers are collected through Arrivals and Departure Forms, which are completed by non-citizens at all officially designated ports of entry or exit, including land border posts and airports. These forms capture a range of the traveller's personal characteristics, including sex, age, and country of nationality, country of residence, and purpose of entry. Supplementary data concerning the month of travel, mode of transport, and port of entry are also recorded by default. Departure statistics are aggregated from border summary statistics compiled by immigration personnel at all officially designated ports of exit.

The results and analysis contained in this report adhere to the guidelines, definitions, and classifications recommended by the UN Tourism and the United Nations Statistical Division (UNSD). Accordingly, this publication is produced in full compliance with internationally accepted statistical standards and best practice.

4.2. Glossary

Definitions of Key Terms

For this publication, the following terms carry the meaning explained below:

Overseas: Encompasses all countries and territories outside the continent of Africa.

Visitor: A non-resident entering Botswana for a period not exceeding twelve consecutive months, whose primary purpose of visit is not to undertake an activity remunerated from within Botswana.

Tourist (Overnight Visitor): An international visitor whose visit includes at least one night stay in either collective or private accommodation within Botswana

Same-day Visitor: An international visitor whose travel does not include an overnight stay in any form of accommodation within Botswana.

Non-resident: A foreign national, excluding residents of Botswana, entering or departing the country.
