This was attributed to a growth in the constituent section index of Operation of Personal Transport (5.2 percent) and purchase of Vehicles (1.2 percent). The increase in the Operation of Personal Transport section index was attributed to the rise in retail pump prices for petrol (95) by P0.71 and diesel (50ppm) by P0.55 per litre, which effected on the 8th of October 2021. [Refer to Table 3.](#)

The Alcoholic Beverages & Tobacco index group registered a growth of 0.5 percent, from 120.1 in September to 120.8 in October 2021. This was due to an increase in the constituent section index of Alcoholic Beverages (0.6 percent) and Tobacco (0.3 percent). [Refer to Table 3.](#)

The Food & Non-Alcoholic Beverages group index moved from 113.5 to 114.0, recording a rise of 0.4 percent. GLOSSARY

Consumer Price Index (CPI) is an index which measures price changes in goods and services with reference to a base period.

Inflation is a measurement of prices movement of goods and services in a particular country.

Domestic Tradeables refers to the goods and services which a country (Botswana) can export to other countries.

Imported Tradeables represents the goods and services which a country (Botswana) imports from other countries (trading partners).

Non-Tradeables refers to the goods and services which a country cannot either export or import to other countries.

All –Tradeables refers to the total of **Domestic** and **Imported Tradeables**.

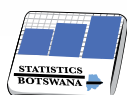

Trimmed Mean Core Inflation- attempts to remove 8 percent (by weight) of the commodity sub-groups with the largest price changes at each of the ends of an ordered series of price changes in any given month.

Core inflation by Exclusion is a measure used to remove the volatility inherent in prices that are only adjusted periodically and not always in response to currently prevailing market forces.
