## PREFACE

The 2012 International Merchandise Trade Statistics (IMTS) report presents Botswana External Trade (imports and exports of goods) Statistics during the year 2012. The quartely reports for 2012 were released in 2013. This annual report follows the 2011 External Trade Statistics Report which was published in March 2014.

The report is divided into two parts, with the first part presenting discussions on IMTS during 2012 while the second part presents tables on which these discussions are based. The first part is further divided into chapters and sections. Table numbers for tables presented in part two are linked to the chapters and sections that discuss these various tables.

Botswana International Merchandise Trade Statistics is mainly based on Harmonized Commodity Description \& Coding System (HS Codes). A few tables are however given on other commodity classifications which are based on the HS Codes. Other commodity classifications discussed in this report are the Standard International Trade Classification (SITC) and the Broad Economic Categories (BEC).

I sincerely thank all stakeholders involved in the formulation of this report for their continued support and feedback, as we strive to better serve users of our products and services.
A. N. Majelantle

Statistician General December 2016

## CHAPTER 1: TOTAL TRADE

## CHAPTER 1: TOTAL TRADE

### 1.0 Introduction

This section deals with the components of total trade, which are; total exports, imports and trade balance. Total exports refer to the sum of domestic exports (exports of Botswana origin) and re-exports (goods which were exported in the same condition as imported or after undergoing minor transformation which leaves them not substantially changed). Trade balance is the difference between total exports and imports for a given period of time.

The components of External Trade are presented on Table 1.1, which gives annual data for the period covering 2008 to 2012. Table 1.2 gives monthly, quarterly and yearly figures for 2011 and 2012.

### 1.1 Yearly Total Trade

Table 1.1 gives yearly Total Trade for the years 2008 to 2012 presents total exports, imports and trade balance. The discussions for these trade flows follow in the sub-sections below and are focused specifically on the 2012 trade, with comparison to 2011 trade.

### 1.1.1 Imports

Discussions on imports are based on cost, insurance and freight (CIF) value. In 2012 imports were valued at P62, 112.9 million, showing an increase of 24.2 percent (P12, 087.4 million) from the 2011 import value of P50, 025.5 million.

### 1.1.2. Total Exports

Total exports increased by 14.5 percent (P5, 787.1 million) from P40, 028.6 million recorded in 2011 to P45, 815.7 million in 2012.

### 1.1.3 Trade balance

Botswana recorded a trade deficit of P16, 297.2 million in 2012. The deficit is aggrevated by the large amounts of diamond imports as a result of the relocation of diamond aggregation processes from London to Gaborone during July 2012. Exports from the aggregation process only started during September of the same year.

Table 1.1: Total Trade, 2008-2012 (Millions of Pula)

| FlowType \Year | $\mathbf{2 0 0 8}$ | $\mathbf{2 0 0 9}$ | $\mathbf{2 0 1 0}$ | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 2}$ |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Imports | $35,769.9$ | $33,809.8$ | $38,735.3$ | $50,025.5$ | $62,112.9$ |
| Domestic Exports | $30,786.6$ | $22,318.2$ | $31,182.2$ | $38,802.0$ | $44,706.0$ |
| Re-Exports | $2,235.2$ | $1,924.7$ | 653.6 | $1,226.6$ | $1,109.7$ |
| Total Exports | $33,021.8$ | $24,242.9$ | $31,835.8$ | $40,028.6$ | $45,815.7$ |
| Trade Balance | $(2,748.2)$ | $(9,566.9)$ | $(6,899.5)$ | $(9,996.9)$ | $(16,297.2)$ |

() denotes negative numbers

Chart 1.1 which is based on Table 1.1, gives the graphical presentation of components of total trade from 2008 to 2012. It is evident from this graph that imports were higher than exports during the entire period displayed, with the difference between the two flows being more pronounced for 2012, resulting in the high trade deficit for the year.

Chart 1.1: Total Trade 2008 to 2012 (Millions of Pula)

### 1.2 Monthly and Quarterly Trade

This section presents components of total trade by month, quarter and year for the period 2011 and 2012 only. The associated data is carried in Table 1.2. The graphical presentation of these components is given in Chart 1.2, which is based on this table.

### 1.2.1 Imports

Table 1.2 shows that comparison of Quartely data for 2012 and 2011 (quarter on quarter differences) shows that all 2012 quarterly imports registered increases over 2011 imports for corresponding quarters. All discussions carried in this section are based on this table.

### 1.2.1.1 Quarter on Quarter Comparison for 2012 and 2011

Comparison of quarter on quarter import values during 2012 and 2011 shows that the first quarter of 2012 increased by 6.3 percent (P772.9 million) from the value of P12, 329.1 million recorded during 2011 first quarter to P13, 102.0 million during the same quarter of the current year. Comparison of import values for the second quarter of 2012 and the same quarter in 2011 shows an increase of 11.2 percent (P1, 322.1 million) from the value of P11, 845.4 million registered during the second quarter of 2011 to the value of P13, 167.6 million recorded during 2012 second quarter.

The third quarter of 2012 total imports were valued at P19, 867.1 million, having increased by 52.9 percent (P6, 875.5 million) as compared to the value of P12, 991.5 million registered during the corresponding quarter of 2011. The fourth quarter of 2012 total imports, valued at P15, 976.2 million, registered an increase of 24.2 percent ( $\mathrm{P} 3,116.8$ million) as compared to P12, 859.4 million recorded during 2011 fourth quarter.

Total imports during the first quarter of 2012 were valued at P13, 102.0 million, having increased by 1.9 percent ( P 242.7 million) from the P12, 859.4 million recorded during 2011 fourth quarter.

Comparison of the second and first quarters of 2012 shows an increase of 0.5 percent (P65.6 million) from P13, 102.0 million registered during the first quarter to P13, 167.6 million recorded during the second quarter. Total imports during the third quarter of the same year was P19, 867.1 million registering an increase of 50.9 percent ( $\mathrm{P} 6,699.5$ million) as compared to P13, 167.6 million recorded during the second quarter. The fourth quarter of 2012 shows a decrease of 19.6 percent (P3, 890.9 million) in total imports value, from P19, 867.1 million recorded during the third quarter to P15, 976.2 million during the fourth quarter of the same year.

The trend of monthly import data for 2011 and 2012 can be observed in Chart 1.2 which is based on Table 1.2.

### 1.2.2 Total Exports

Total exports as discussed here should be understood to mean the sum of domestic exports and re-exports. Discussions on this sub-section are based on Table 1.2.

The value of total exports is heavily dependent on exports of rough diamonds. As a result, total exports values will show ups and downs depending on exportation of rough diamonds during various periods of time.

### 1.2.2.1 Quarter on Quarter Comparison for 2012 and 2011

Quarter on quarter comparison for total exports during 2012 and 2011 shows that the first quarter of 2012 registered an increase of 8.0 percent (P744.8 million) from P9, 353.5 million recorded during the first quarter of 2011, to P10, 098.3 million during the same quarter in 2012.

The second quarter of 2012 registered a decrease of 6.0 percent (P644.7 million) in total exports value, from P10, 713.6 million recorded during the second quarter of 2011 to P10, 068.8 million during the same quarter of the year under review. Comparison of third quarters of 2012 and 2011 shows an increase of 22.6 percent ( $\mathrm{P} 2,494.9$ million) from the value of P11, 018.4 million recordrd during the third quarter of 2011 to $\mathrm{P} 13,513.3$ million recorded during the corresponding quarter of 2012.

Total exports value recorded during 2012 fourth quarter shows an increase of 35.7 percent ( $\mathrm{P} 3,192.2$ million) from the value of $\mathrm{P} 8,943.1$ million recorded during 2011 fourth quarter to P12, 135.3 million during the corresponding quarter of the year under review.

### 1.2.1.2 Comparison of 2012 Quarter and the Preceding Quarter

Comparison of total exports value during the first quarter of 2012 and the fourth quarter of 2011 shows an increase of 12.9 percent ( $\mathrm{P} 1,155.2$ million), from P8, 943.1 million during 2011 fourth quarter to P10, 098.3 million during 2012 first quarter.

Comparison of 2012 quarters shows that the second quarter of 2012 recorded total exports valued at P10, 068.8 million, which is a decrease of 0.3 percent (P29.4 million) when compared to the value of P10, 098.3 million recorded during the first quarter of the same year. The third quarter of 2012 recorded an increase of 34.2 percent ( $\mathrm{P} 3,444.5$ million) from the value of P10, 068.8 million recorded during the second quarter to P13, 513.3 million during the third quarter of the same year. During the fourth quarter of 2012, total exports were valued at P12, 135.3 million, having declined by 10.2 percent (P1, 378.0 million) as compared to P13, 513.3 million recorded during the third quarter of the same year.

### 1.2.3 Trade Balance

Trade deficits were registered during most of the period displayed in Chart 1.2 except for June 2011 and September 2012. Movements on trade balance are better depicted by Chart 1.2 which is based on Table 1.2.

Chart 1.2 shows a general upward trend with regard to the imports line for the two years under consideration. The imports trend line starts at around three billion Pula in January 2011 and reaches the highest peak of just above eight billion during July 2012, closing the period with just over four billion during December 2012.

The total exports trend line however shows erratic ups and downs, depending on the value of diamonds exports during various months. The highest monthly trade deficit was recorded during July 2012, with trade surplus noticeable for June 2011 and September 2012.

Chart 1.2: Total Trade, 2011 and 2012 (Millions of Pula)

## CHAPTER 2: TRADE BY PRINCIPAL COMMODITIES

### 2.0 Introduction

Principal commodity groups refer to commodities grouped together to form major groups of related commodities. Commodities forming a group may be of related chapters, for example; "Machinery \& Electrical Equipment" which combines machines and electrical appliances; "Vehicles \& Transport Equipment" which combines vehicles and other equipment used for transport purposes.

In some cases it becomes a challenge to come up with further groups of related chapters or commodities. This is in the case when commodity groupings' contributions to the total remain minimal. In such cases, the commodities are grouped together under one category called "Other".

### 2.1. Composition of Principal Imports

Principal imports commodity groups are driven mainly by six groups, being Machinery \& Electrical Equipment; Food, Beverages \& Tobacco; Diamonds; Fuel; Vehichles \& Transport Equipment and Chemicals \& Rubber Products. The discussion on principal imports is based on Table 2.1A which presents values on principal imports and Table 2.1B giving percentage distributions of these groups to total imports in a given period.

During 2012, Diamonds made the highest contribution of 26.6 percent (P16, 512.4 million) to total imports (P62, 112.9 million). This was followed by Fuel with 16.1 percent (P10, 007.0 million). The third most contributing group was Machinery \& Electrical Equipment with 14.6 percent (P9, 097.8 million) followed by Food, Beverages \& Tobacco with 9.9 percent (P6, 131.4 million) and Vehicles \& Transport Equipment with 9.0 percent (P5, 615.5 million). Chemicals \& Rubber Products contributed 8.8 percent (P5, 443.0 million).

The 2012 quarterly data showed much variation from the total yearly data for 2012 with regard to percentage distributions. During the first quarter of 2012, Fuel contributed the most to total imports with 19.6 percent (P2, 572.4 million) of P13, 102.0 million, closely followed by Machinery \& Electrical Equipment with 19.4 percent (P2, 539.9 million). Diamonds contributed 13.2 percent (P1, 735.2 million) followed by Food, Beverages \& Tobacco with 11.0 percent (P1, 438.1 million), then Chemicals and Rubber Products with 10.1 percent (P1, 322.4 million) while Vehicles \& Transport Equipment contributed 8.8 percent (P1, 153.2 million).

Percentage distributions for other Principal Import Commodity Groups as well as for the other three quarters of 2012 can be observed on Table 2.1B which is based on Table 2.1A. The graphical presentation of Principal Import Commodity Groups for 2012, is displayed on Chart 2.1.

Chart 2.1: Principal Import Commodity Groups - 2012 Percentage Distributions

Note: Other Goods, include All Other Goods not specified in Table 2.1 B

### 2.2 Composition of Principal Exports

Principal Exports consists mainly of three (3) major groups; these being Diamonds, Copper \& Nickel and Machinery \& Electrical Equipment. Discussions on major export groups are based on Tables 2.2A and 2.2B. Diamonds discussed here consist of those from the aggregation process as well as those from diamond polishing or manufacturing companies. Machinery \& Electrical Equipment include those that were originally imported for home consumption and are now being re-exported.

Diamonds contributed 78.9 percent (P36, 143.0 million) to total exports (P45, 815.7 million), followed by Copper \& Nickel with 7.8 percent (P3, 551.0 million) and Machinery \& Electrical Equipment with a contribution of 2.3 percent ( $\mathrm{P} 1,034.0$ million) during the period under review.

The quarterly data follows a similar trend to that of the yearly data for 2012, with Diamonds contributing, 73.6 percent (P7, 429.8 million) of P10, 098.3 million during the first quarter. During the second quarter, Diamonds contributed 77.4 percent (P7, 796.2 million) to total exports (P10, 068.8 million). The same commodity made a contribution of 82.6 percent ( P 11 , 168.6 million) to total exports (P13, 513.3 million) during the third quarter of 2012, while for the last quarter of the same year, the contribution made by Diamonds to total exports (P12, 135.3 million) was 80.3 percent (P9, 748.4 million).

The contributions made by Copper \& Nickel during the four quarters of 2012 were as follows; 10.6 percent (P1, 067.1 million) of P10, 098.3 million during the first quarter, 8.3 percent (P839.7 million) of P10, 068.8 million during the second quarter, 5.1 percent ( P 687.8 million) of $\mathrm{P} 13,513.3$ million during the third quarter and 7.9 percent (P956.4 million) of P12, 135.3 million during the fourth quarter of the same year.

Percentage distributions of other commodity groups can be observed on Table 2.2B while Chart 2.2 displays percentage distributions for the year 2012 as a whole.

Chart 2.2: Principal Export Commodity Groups - 2012 Percentage Distributions

Note: Other*= All Other Goods not specified in Table 2.2 B

## CHAPTER 3: DIRECTION OF TRADE

Direction of trade presents trade by major trading partners for principal commodity groups. Section 3.1 discusses principal imports by source at region and country level while Section 3.2 deals with destination of principal exports at region and country level. At country level, only those countries that had significant trade with Botswana during 2012 are shown separately while those with insignificant trade are grouped together under one category referred to as "Other".

### 3.1 Principal Imports by Source

Principal Import Commodity Groups at Region and Country level in value terms, are presented on Table 3.1A, while Tables 3.1B and 3.1C display percentage distributions based on Table 3.1A.
3.1.1 Principal Imports Commodity Groups as a Pecerntage of Total Imports at Country or Regional Level

This Sub-Section discusses import groups presented as percentages of total imports at region and major trading partner countries. The associated percentage distributions are presented in Table 3.1B which is derived from Table 3.1A. The column totals of Table 3.1B give import groups as a percentage of total yearly imports, the same information that is presented in Chapter Two, Chart 2.1.

Of all Imports (P39, 101.2 million) from South Africa during 2012, Fuel contributed the highest at 24.0 percent (P9, 378.9 million), followed by Food, Beverages \& Tobacco with 14.8 percent (P5, 791.5 million) and Machinery \& Electrical Equipment (MEE) with 14.1 percent (P5, 530.8 million).

Total Imports from the EU (P12, 301.3 million ) consisted mainly of Diamonds, 83.2 percent (P10, 240.6 million) followed by Machinery \& Electrical Equipment with 10.3 percent (P1, 267.6 million) of total imports from that region during the same year (Refer to Table 3.1B).

Imports from Asia consisted mainly of MEE, 36.5 percent (P1, 687.2 million), Diamonds, 19.4 percent (P897.6 million) and Vehicles \& Transport Equipment contributing 14.8 percent (P683.2 million) of total imports (P4, 617.5 million) from that region. Four countries contributed significantly to total imports from Asia, these being China, India, Japan and Hong Kong, as seen on Table 3.1A. The percentage distribution of commodity groups at country or region level as displayed in Table 3.1B shows that imports from China consisted mainly of MEE at 56.8 percent (P994.2 Million) of total imports ( $\mathrm{P} 1,751.1$ million) from that country.

The United States of America (USA) supplied imports valued at P1, 206.7 million, representing 1.9 percent of the total imports P62, 112.9 during 2012. Groups that made significant contributions to imports from the USA during the year under review were MEE with 40.4 percent (P487.6 million) and Vehicles \& Transport Equipment with 39.8 percent (P479.8 million).
3.1.2 Principal Imports Commodity Groups by Region and Partner as a Percentage of Total Import Group

Table 3.1C presents percentage distributions for principal import groups by country and region as a percentage of total import groups during 2012. This table is also derived from Table 3.1A. Most of imports from all groups during 2012 were sourced from South Africa as shown on Table 3.1C.

Botswana sources most of her imports from the Southern African Customs Union (SACU), especially South Africa. During 2012, 63.0 percent (P39, 101.2 million) of total imports P62, 112.9 million came from South Africa.

Imports from the European Union (EU) as a whole were valued at P12, 301.3 million, representing 19.8 percent of total imports during the year. The United Kingdom (UK) with 16.6 percent (P10, 292.6 million) and Belgium with 1.3 percent (P803.7 million) are the only countries that provided Imports representing more than 1.0 percent of total imports during the year under review.

Asia as a block contributed 7.4 percent (P4, 617.5 million) of total imports during 2012. China, Israel and India respectively contributed 2.8 percent (P1, 751.1 million), 1.5 percent (P923.6 million) and 1.3 percent (P837.9 million) of total imports during the same year.

Imports from the United States of America (USA) were valued at P1, 206.7 million, representing 1.9 percent of total imports during the year. Graphical representation of percentage distributions of imports by major trading partners during 2012 is given on Chart 3.1.

During 2012, Diamonds were mostly imported from the UK, 59.2 percent (P9, 769.6 million) of P16, 512.4 million followed by Nambia, South Africa and Israel with 17.8 percent (P2, 943.6 million), 13.7 percent (P2, 263. 7 million) and 4.7 percent (P771.1 million) respectively (Table 3.1 C).

Imports of Machinery \& Electrical Equipment were valued at P9, 097.8 million, 60.8 percent (P5, 530.8 million) of this came from South Africa, 10.9 percent (P994.2 million) from China and 5.4 percent ( P 487.6 million) came from USA.

South Africa supplied 93.7 percent (P9, 378.9 million) of (P10, 007.0 million) Fuel, while Namibia and Mozambique supplied 3.6 percent (P364.0 million) and 1.6 percent (P155.3 million) respectively.

Most of Food Beverages \& Tobacco came from South Africa (P5, 791.5 million), representing 94.5 percent of P6, 131.4 million while Namibia supplied 1.9 percent (P114.8 million).

Chemicals \& Rubber Products were imported mostly from South Africa during 2012, representing 85.7 percent ( $\mathrm{P} 4,665.4$ million) of P5, 443.0 million. India supplied 4.7 percent (P253.9 million), China contributed 1.9 percent ( P 104.8 million), while 1.3 percent (P69.1 million) of the same commodity group came from the USA.

Total imports for Vehicles \& Transport Equipment were valued at P5, 615.5 million during 2012, with 66.5 percent (P3, 733.7 million) coming from South Africa, 8.5 percent (P479.8 million) from the USA while Japan supplied 8.3

Total imports for Vehicles \& Transport Equipment were valued at P5, 615.5 million during 2012, with 66.5 percent (P3, 733.7 million) coming from South Africa, 8.5 percent (P479.8 million) from the USA while Japan supplied 8.3 percent (P466.8 million).

Metals \& Metal Products imports (P2, 992.1million) mainly came from South Africa and China during 2012, with 83.4 percent (P2, 437.9 million) coming from South Africa and 6.1 percent (P177.3 million) from China.

Chart 3.1: Total Imports by Region and Partner - 2012

Note: Rest of the world includes all other trading partners not specified as in Table 3.1

### 3.2 Principal Exports by Destination

Discussions on major exports by destination for 2012 are based on Tables 3.2 A, B and C, with Table 3.2 A presenting values while percentage distributions appear on Table 3.2 B and C .

Most of Botswana's exports are destined to the EU, especially the UK. During 2012, 64.8 percent (P29, 667.7 million) of total exports (P45, 815.7 million) went to the EU, with the UK alone receiving 60.3 percent (P27, 623.0 million) and Belgium 4.3 percent (P1, 978.9 million), refer to Tables 3.2 A and C last columns.

Tables 3.2 A and C show that exports to South Africa were valued at P6, 034.1 million, representing 13.2 percent of total exports during the period under review. Zimbabwe and Namibia each received 1.9 percent of total exports, at values of P872.1 million and P851.1 million respectively.

Exports destined to Israel were valued at P2, 458.2 million, representing 5.4 percent of total exports during the year under review. India received 1.1 percent (P520.3 million) of the total exports during the same period.

Norway received 5.4 percent (P2, 495.5 million), Switzerland and the USA received 1.7 percent (P776.4 million) and 1.2 percent (P553.3 million) respectively, of total exports during the period under review.

### 3.2.1 Principal Exports Commodity Groups as a Pecerntage of Total Exports at Country or Region level

Tables 3.2A and $B$ show that total exports to the UK were valued at P27, 623.0 million during 2012, all of this was attributable to Diamonds. The same tables show that exports to South Africa were valued at P6, 034.1 million, consisting mainly of Diamonds at 16.1 percent (P974.4 million), Copper Nickel 13.5 percent (P813.6 million) and Machinery \& Electrical Equipment at 12.0 percent ( P 721.3 million) of total exports to the country

### 3.2.1 Principal Exports Commodity Groups as a Percentage of Total Exports at Country or Region level

Tables 3.2A and B show that total exports to the UK were valued at P27, 623.0 million during 2012, all of this was attributable to Diamonds. The same tables show that exports to South Africa were valued at P6, 034.1 million, consisting mainly of Diamonds at 16.1 percent (P974.4 million), Copper Nickel 13.5 percent (P813.6 million) and Machinery \& Electrical Equipment at 12.0 percent (P721.3 million) of total exports to the country during the same year.

Total Exports to Israel were valued at P2, 458.2 million, with 99.8 percent (P2, 453.7 million) attributable to Diamonds. Norway received exports valued at P2, 495.4 million, all being Copper Nickel. Belgium received mostly Diamonds, at the value of P1, 977.1 million, 99.9 percent of total exports to the country. Exports to Zimbabwe were valued at P872.1 million, with 25.5 percent (P222.6 million) being Copper Nickel, 17.7 percent (P154.7 million) attributable to Vehicles \& Parts while Salt \& Soda Ash contributed 6.3 percent (P55.0 million) to total exports to that country during the year under review.

### 3.2.2 Principal Exports Commodity Groups by Region and Partner as a Percentage of Total Export Group

Table 3.2C gives major export groups at country or region level as a percentage of the total for a particular major export group. Discussions that follow are based on this table together with Table 3.2A.

Botswana's major exports, Diamonds, contributed 78.9 percent (P36,143.0 million) of total exports during 2012 (Tables 3.2A and B). Of the total value of Diamonds exports, 76.4 percent ( $\mathrm{P} 27,612.2$ million) was destined to the UK, 6.8 percent ( $\mathrm{P} 2,453.7$ million) to Israel while Belgium got 5.5 percent (P1, 977.1 million). (Refer to Tables 3.2A and C.)

Most of Copper Nickel exports were destined to Norway during 2012, 70.3 percent ( $\mathrm{P} 2,495.4$ million) of P3, 551.0 million. South Africa received 22.9 percent ( P 813.6 million) while Zimbabwe got 6.3 percent ( P 222.6 million).

Machinery \& Electrical Equipment was mainly exported to SADC region during 2012 with South Africa having received 69.8 percent (P721.3 million), followed by Zambia with 6.2 percent (P63.9 million), Namibia with 5.4 percent (P55.7 million) and Zimbabwe with 4.1 percent (P42.3 million).

Most of Gold was exported to South Africa, at 98.5 percent (P632.5 million) of P641.8 million. Zimbabwe received 23.9 percent ( P 154.7 million) of Vehicles \& Parts (P646.9 million), South Africa got 23.0 percent (P148.8 million), followed by Nambia with 22.2 percent ( P 143.3 million) and Zambia with 18.0 percent (P116.2 million).

Textile exports were mainly destined to South Africa during 2012, representing 81.8 percent (P505.0 million) of total Textile exports (P617.4 million) during the year. The USA got 13.9 percent (P85.7 million) while Zimbabwe got 3.3 percent (P20.4 million).

Salt \& Soda Ash was exported to the SADC region only during 2012, mainly to South Africa. South Africa received 73.2 percent (P330.8 million) of P451.6 million, Zambia and Zimbabwe received 12.5 percent (P56.5 million) and 12.2 percent (P55.0 million) respectively. The Democratic Republic of Congo (DRC) got 1.6 percent (P7.1 million) of Salt \& Soda Ash exports during 2012.

Chart 3.2: Total Exports by Region and Partner - 2012

Note: Rest' World includes all other trading partners not specified as in Table 3.2

## CHAPTER 4: TRADE AT CHAPTER LEVEL

 met

Trade at Chapter level presents international merchandise trade at the 2-digit level of the Harmonized Commodity Description and Coding System (HS Codes). This trade appears on this section for both imports and exports during 2012. Table 4 presents trade values together with the associated percentage distributions for the 99 chapters of the HS Codes, excluding Chapter 77 which is reserved for future customs use and Chapter 98 which was in the past used by Botswana for importation of vehicle parts for vehicle assembly during the time when there were vehicle assembly plants in the country.

### 4.1 Total Imports by Chapter

Botswana imports all commodities found in all the chapters of the HS Codes. The discussion will be centered on chapters that contributed not less than 2.0 percent of total imports during 2012, and statistics associated with other chapters, can be viewed in Table 4.

During 2012, Chapter 71, consisting of "Natural or Cultured Pearls, Precious or Semi-Precious Stones and Precious Metals" contributed 26.6 percent (P16, 547.8 million) of total imports (P62, 112.9 million). This was followed by Chapter 27 which consists of "Mineral Fuels \& Associated Products" with 16.1 percent (P10, 007.0 million). Chapter 84 which consists of "Boilers, Machinery, Mechanical Appliances \& parts thereof" followed with 8.8 percent (P5, 485.0 million), while Chapter 87 "Vehicles \& Parts" contributed 8.0 percent (P4, 951.4 million) of total imports.

Some of the chapters that contributed imports representing 2.0 percent or more of total imports during 2012 were Chapter 85 "Machinery \& Electrical Equipment, Sound Recorders \& Reproducers, Television image \& Parts" which contributed 5.8 percent (P3, 612.7 million) to total imports, while Chapter 73 "Articles of Iron or Steel" contributed 2.4 percent (P1, 504.2 million).

### 4.2 Total Exports by Chapter

Significant contribution to total exports is mainly centered on a few chapters, with contributions in excess of one percent, while most chapters contributed less than 1.0 percent of the yearly total. Total exports consists mainly of minerals, especially rough diamonds, and discussions on total exports at chapter level are confined to chapters that contributed not less than 1.0 percent of the yearly total during 2012 while others can be viewed on Table 4.

During 2012, Chapter 71 which comprises "Natural or Cultured Pearls, Precious or Semi-Precious Stones and Precious Metals" contributed 80.3 percent (P36, 794.4 million) of total exports (P45, 815.7 million). Chapter 75 , consisting of "Nickel \& Articles thereof" contributed 6.0 percent (P2, 765.2 million) of total exports during the same year.

Other chapters that contributed exports representing more than 1.0 percent of total exports during 2012 were Chapter 87 consisting of "Vehicles \& Parts" with 1.4 percent (P646.9 million). Chapter 85, "Electrical machinery and equipment and parts" contributed 1.2 percent (P566.3 million). Chapter 2; "Meat and edible meat offal" contributed 1.1 percent (P511.0 million) while Chapter 84; "Boilers, Machinery \& Mechanical Appliances and Parts thereof" contributed 1.0 percent (P467.7 million) to total exports during the year under review.
-
CHAPTER 5: MOST TRADED COMMODITIES

### 5.0 Introduction

This section presents the most traded commodities during 2012, for both imports and total exports. As imports into Botswana are of a wide variety, the top 100 imported commodities during 2012 are presented in this report, while with regard to exports, only the top 50 are given since the top 50 exported commodities contribute over 90 percent of total exports. The top 100 imported commodities together with associated percentage distributions are presented in Table 5.1 while Table 5.2 presents the top 50 exported commodities.

### 5.1 The Most Imported Commodities

The top most imported commodity during 2012 was "Non-industrial diamonds unworked or simply sawn, cleaved or bruted", with a contribution of 25.9 percent ( $\mathrm{P} 16,079.5$ million) of total imports, followed by "Distilled Fuel" with 5.2 percent (P3, 249.5 million). Most of the Diamonds imports are for aggregation process.

Other commodities that contributed significantly to total imports during 2012, as presented in Table 5.1, included "Petrol" with 4.4 percent (P2, 705.0 million) and "Electrical Energy" at the value of P1, 805.3 million, representing 2.9 percent of total imports. "Other vehicles of a cylinder capacity exceeding 1500 cmcb but not exceeding 3000 cmcb NES" contributed 2.0 percent (P1, 214.2 million) to total imports during the year under review. Other individual commodities which are among the top 100 imports can be observed in Table 5.1.

### 5.2 The Most Traded Exports

As earnings from exports are heavily dependent on minerals especially rough diamonds, only five commodities contributed more than 1.0 percent to total exports during 2012. These five commodities were "Rough Diamonds" with 66.6 percent (P30, 516.9 million), "Non Industrial Diamonds, Not Mounted" with 11.8 percent (P5, 388.6 million), "Nickel Mattes" with 6.0 percent (P2,765.2 million), "Copper Ores \& Concentrates" with 1.6 percent (P734.7 million), and "Unwrought Gold" with 1.4 percent (P632.2 million). Other commodities can be viewed on Table 5.2.

## CHAPTER 6: TRADE BY OTHER COMMODITY CLASSIFICATIONS

This chapter gives trade by two other commodity classifications which are based on the Harmonised Commodity Description \& Coding System (HS Codes). The two other commodity classifications discussed here are the Standard International Trade Classification (SITC Revision 4) and the Broad Economic Categories (BEC Revision 4).

### 6.1 Standard International Trade Classification (SITC)

The Standard International Trade Classification is another statistical classification of commodities entering external trade and is designed to provide the commodity aggregates required for purposes of economic analysis, to facilitate the international compilation of trade by commodity data. The SITC has 3,118 basic headings and sub headings which are assembled in 261 groups, 67 divisions and 10 sections.

This report uses SITC Revision 4, which is based on Harmonized Commodity Description \& Coding System of 2007 (HS 2007). Commodities brought about by HS 2012 have also been taken on board. Figures presented here are for the Sections and Divisions only. Table 6.1A gives imports while Table 6.1B presents exports.

### 6.1.1 Imports by Standard International Trade Classification (SITC) - 2012

Table 6.1A shows that from a total of P62, 112.9 million worth of imports during 2012, Manufactured Goods classified chiefly by material (Section 6) contributed 36.6 percent (P22, 743.4 million). Divisions that contributed the most to this Section were Division 66, Non-metallic Mineral Manufactures with 28.5 percent (P17, 692.5 million) of total imports; Division 69, Manufactures of Metals with 2.7 percent (P1, 671.3 million); Division 67, Iron \& Steel with 1.6 percent (P988.3 million) and Division 62, Rubber Manufactures with 1.3 percent at value of P803.9 million.

Section 7, which comprises Machinery \& Transport Equipment, contributed 23.7 percent (P14, 713.7) of total imports during 2012. Divisions that contributed the most to this Section were Division 78, Road vehicles (including air-cushion vehicles) with 7.7 percent (P4, 789.7 million) of total imports; Division 72, Machinery specialized for particular industries with 4.1 percent (P2, 539.1 million); Division 77, Electrical machinery, apparatus \& appliances and electrical parts thereof with 3.2 percent (P1, 983.9 million); Division 74, General industrial machinery and equipment, N.E.S, and machine parts, N.E.S and Division 71, Power-generating machinery and equipment, with 2.5 percent (P1, 569.8 million) and 1.8 percent (P1, 122.1 million) respectively.

Another section that contributed significantly to total imports during 2012 was Section 3 which comprises Mineral Fuels, Lubricants \& Related Materials. This section contributed 16.0 percent (P9, 922.1 million) to total imports. The Divisions that contributed mostly in this Section were Division 33, Petroleum, Petroleum Products \& Related Materials with 12.8 percent (P7, 959.5 million) and Division 35, Electric Current with 2.9 percent (P1, 805.3 million).

Note: NES= Not Elsewhere Specified; Other*= All other commodities not specified as in Table 6.1A

### 6.1.2 Exports by Standard International Trade Classification (SITC) - 2012

The Section that contributed most to total exports during 2012 was Section 6 , which consists of "Manufactured Goods classified chiefly by material". This Section accounted for 79.5 percent (P36, 443.3 million) of total exports (P45, 851.7 million) during the year. The Division that contributed the most in this Section was Division 66 which comprises "Non-metallic mineral manufactures not elsewhere specified". This Division contributed 78.5 percent (P35, 981.3 million) to total exports during the year. This is the Division that contains rough diamonds.

Section 2, consisting of "Crude Materials inedible, excluding Fuels" contributed 9.3 percent (P4, 269.8 million) to total exports during 2012. The Division that contributed the most in this Section was Division 28, which comprises "Metalliferous Ores and Scrap Metal", with 8.2 percent (P3, 761.7 million) of total exports during the year. This is the Division that contains Copper/Nickel.
"Machinery \& Transport Equipment" (Section 7) contributed 4.4 percent (P2, 016.8 million) to total exports during 2012 with Division 78, "Road Vehicles" contributing 1.4 percent (P630.5 million), while Division 77, "Electrical Machinery, Apparatus and Appliances NES" followed with 1.1 percent (P500.6 million).
"Miscellaneous Manufactured Articles" (Section 8) and "Commodities \& Transcations NES"(Section 9) each contributed 1.4 percent to total exports during 2012, at values of P642.8 million and P660.3 million respectively. Division 97" Gold, non-monetary (excluding gold ores and concentrates)" accounted for all the contribution made by Section 9, which is 1.4 percent at the value of P642.3 million. Division 84, "Articles of Apparel \& Clothing Accessories" contributed 1.0 percent (P441.4 million) of total exports during the year.

## Chart 6.1B: Exports by Standard International Trade Classification (SITC) - 2012

Note: Other*= All other commodities not specified as in Table 6.1B

### 6.2 Broad Economic Categories (BEC)

The Broad Economic Categories classification was designed to serve as a means for converting trade data compiled in terms of SITC into end use categories that were meaningful within the framework of System of National Accounts (SNA). These categories are approximating the three basic classes of goods in SNA; namely capital goods, intermediate goods and consumption goods.

Broad Economic Categories has 19 basic categories that can be aggregated to approximate the three basic classes of goods, thus permitting trade statistics to be considered jointly with other sets of general economic statistics such as national accounts and industrial statistics; for national, regional and global economic analysis.

The discussion here is only based on sections and divisions of the Broad Economic Categories.

### 6.2.1 Imports by Broad Economic Categories (BEC)

During 2012, imports by Broad Economic Categories, consisted mainly of "Industrial Supplies NES" (Section 2). This Section contributed 42.2 percent (P26, 182.3 million) of total imports (P62, 112.9 million) during the year (Table 6.2). Most contribution in this Section came from Division 21; "Industrial supplies, NES, primary form", with 27.4 percent (P17, 017.5 million) of total imports during the year.

Section 3, "Fuel \& Lubricants", constituted 16.0 percent (P9, 922.7 million) of total imports during the year. This contribution was almost all attributable to Division 32 "Fuel \& Lubricants, Processed" with a contribution of 15.1 percent at the value of P9, 392.4 million.
"Capital Goods (Excluding Transport Equipment) Parts \& Accessories", Section 4, constituted 14.5 percent (P8, 999.4 million) of total imports during 2012, with 9.6 percent (P5, 951.9 million) attributable to Division 41; "Capital Goods (Excluding Transport Equipment)".

Section 5, "Transport Equipment, Parts \& Accessories" constituted 10.3 percent (P6, 388.1 million) of total imports during 2012 with Divisions 51 and 53; "Passenger motor cars" and "Parts \& accessories of transport equipment " contributing 3.6 percent each to total imports during the year, at values of P2, 224.9 million and P2, 232.8 million respectively.

Section 6, "Consumer Goods NES" constituted 8.9 percent (P5, 513.6 million) during 2012, with Division 63 "Non-Durable Consumer Goods" making a contribution of 4.6 percent ( $\mathrm{P} 2,869.7$ million). Contributions made by other Sections and Divisions of the Broad Economic Categories can be observed on Table 6.2 and Chart 6.2 A.

Chart 6.2A: Imports by Broad Economic Categories (2012)

Note: NES= Not Elsewhere Specified

### 6.2.2 Exports by Broad Economic Classification (BEC)

It is also of interest to look at the commodities that are exported by Broad Economic Categories. This presentation will give a country an idea with regard to which goods are exported unprocessed or in primary form. The country can as a result make plans to set up processing industries to creat employment and at the same time end up exporting finished goods which will bring in more revenue. This data is also presented in Table 6.2 together with the imports data.

This table shows that during 2012, over 90 percent of total exports were "Industrial Supplies NES"; Section 2. The Section contributed 91.4 percent (P41, 888.1 million) to total exports (P45, 815.7 million) during 2012, with 69.8 percent ( $\mathrm{P} 31,994.7$ million) attributable to Division 21, "Industrial Supplies in primary form", and 21.6 percent (P9, 893.4 million) contributed by Division 22, "Industrial Supplies, Processed".

Section 5, "Transport Equipment, Parts \& Accessories thereof", contributed 3.1 percent (P1, 423.3 million). Section 1, Food \& Beverages made a contribution of 2.0 percent (P921.1 million) during the year, with 1.8 percent (P820.9 million) attributable to Division 12, "Food and Beverages processed". Section 6; "Consumer Goods not elsewhere specified" contributed 1.5 percent (P670.7 million) to total exports during the year, with 1.1 percent (P534.7 million) attributable to Division 62, "Semi-durable consumer goods".

Contributions made by other Sections and Divisions of the Broad Economic Categories can be observed in Table 6.2 and Chart 6.2 B.

Chart 6.2B: Exports by Broad Economic Categories (2012)

Note: NES= Not Elsewhere Specified

Table 4: Total Exports and Imports at Chapter Level - 2012 (Million Pula)

| Chapter | Description | Imports | \% | Total Exports | \% |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 1 | Live animals. | 48.0 | 0.1 | 27.9 | 0.1 |
| 2 | Meat and edible meat offal. | 107.9 | 0.2 | 511.0 | 1.1 |
| 3 | Fish and crustaceans, mollusc and other aquatic invertebrates | 34.7 | 0.1 | 1.9 | 0.0 |
| 4 | Dairy produce; bird's eggs; natural honey; edible products of animal origin, NES or included | 486.1 | 0.8 | 3.6 | 0.0 |
| 5 | Products of animal origin, NES or included | 8.2 | 0.0 | 0.1 | 0.0 |
| 6 | Live trees and other plants, bulbs, roots, and the like; cut flowers and ornamental foliage | 14.4 | 0.0 | 0.1 | 0.0 |
| 7 | Edible vegetables and certain root and tubers | 295.4 | 0.5 | 6.7 | 0.0 |
| 8 | Edible fruits and nuts; peel of citrus fruit or melon | 179.5 | 0.3 | 0.5 | 0.0 |
| 9 | Coffee, tea, mate and spices | 192.7 | 0.3 | 1.7 | 0.0 |
| 10 | Cereals | 1,204.1 | 1.9 | 10.5 | 0.0 |
| 11 | Products of the milling industry; malt; starches; inulin; wheat gluten | 186.5 | 0.3 | 26.4 | 0.1 |
| 12 | Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial or medicinal plants; straw and fodder | 47.7 | 0.1 | 53.8 | 0.1 |
| 13 | Lac; gums, resins and other vegetable saps and extracts | 16.9 | 0.0 | 25.8 | 0.1 |
| 14 | Vegetable plaiting materials; vegetable products NES or included | 0.4 | 0.0 | 0.0 | 0.0 |
| 15 | Animal or vegetable fats and oils and their cleavage products; prepared edible fats, animal or vegetable waxes. | 303.2 | 0.5 | 5.1 | 0.0 |
| 16 | Preparations of meats, of fish or of crustaceans, mollusc or other aquatic invertebrates | 110.1 | 0.2 | 6.8 | 0.0 |
| 17 | Sugar and sugar confectionery | 539.5 | 0.9 | 148.7 | 0.3 |
| 18 | Cocoa and cocoa preparations | 58.2 | 0.1 | 1.5 | 0.0 |
| 19 | Preparations of cereals, flour, starch or milk; pastrycooks' products | 341.4 | 0.5 | 14.0 | 0.0 |
| 20 | Preparation of vegetables, fruit, nuts or other parts of plants | 421.9 | 0.7 | 10.5 | 0.0 |
| 21 | Miscellaneous edible preparations | 430.0 | 0.7 | 4.9 | 0.0 |
| 22 | Beverages, spirits and vinegar | 495.9 | 0.8 | 70.6 | 0.2 |
| 23 | Residues and waste from the food industries; prepared animal fodder. | 234.6 | 0.4 | 32.7 | 0.1 |
| 24 | Tobacco and manufactured tobacco substitutes | 374.2 | 0.6 | 3.9 | 0.0 |
| 25 | Salt, sulphur; earths and stone; plastering materials, lirne and cement | 643.9 | 1.0 | 153.7 | 0.3 |
| 26 | Ores, slag and ash | 111.0 | 0.2 | 734.8 | 1.6 |
| 27 | Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes | 10,007.0 | 16.1 | 262.0 | 0.6 |
| 28 | Inorganic chemicals; organic or inorganic compounds of precious metals, of rare earth metals, of radioactive elements or isotopes | 162.1 | 0.3 | 309.5 | 0.7 |
| 29 | Organic chemicals | 96.6 | 0.2 | 0.1 | 0.0 |
| 30 | Pharmaceutical products | 1,089.7 | 1.8 | 92.1 | 0.2 |
| 31 | Fertilisers | 289.5 | 0.5 | 0.2 | 0.0 |
| 32 | Tanning or dyeing extracts; tannin and their derivatives; dyes pigments and other colouring matter; paints and varnishes; putty and other mastic; inks | 310.3 | 0.5 | 5.2 | 0.0 |
| 33 | Essential oils and resinoid; perfumery, cosmetic or toilet preparations | 531.7 | 0.9 | 11.8 | 0.0 |
| 34 | Soap, organic surface active agents, washing and lubricating prep., artificial or prepared waxes, polishing or scouring prep., candles and similar, modelling pastes, dental waxes and prep. with basis of plaster | 573.9 | 0.9 | 19.1 | 0.0 |
| 35 | Albuminoidal substances; modified starches; glues; enzymes | 51.3 | 0.1 | 0.5 | 0.0 |
| 36 | Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations | 100.6 | 0.2 | 18.1 | 0.0 |
| 37 | Photographic and cinematographic goods | 21.4 | 0.0 | 0.6 | 0.0 |
| 38 | Miscellaneous chemical products | 396.2 | 0.6 | 4.6 | 0.0 |

Table 4 Cont'd: Total Exports and Imports at Chapter Level - 2012 (Million Pula)

| Chapter | Description | Imports | \% | Total Exports | \% |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 38 | Miscellaneous chemical products | 396.2 | 0.6 | 4.6 | 0.0 |
| 39 | Plastics and articles thereof | 960.6 | 1.5 | 246.6 | 0.5 |
| 40 | Rubber and articles thereof | 859.3 | 1.4 | 18.9 | 0.0 |
| 41 | Raw hides and skins (other then furskins) and leather | 1.2 | 0.0 | 63.0 | 0.1 |
| 42 | Articles of leather; saddlery and harness; travel goods, handbags and similar containers; articles of animal gut (other than silk-worn gut) | 68.4 | 0.1 | 1.2 | 0.0 |
| 43 | Furskins and artificial fur; manufactures thereof | 0.3 | 0.0 | 0.0 | 0.0 |
| 44 | Wood and articles of wood; wood charcoal | 611.0 | 1.0 | 29.1 | 0.1 |
| 45 | Cork and articles of cork | 3.6 | 0.0 | 0.1 | 0.0 |
| 46 | Manufactures of straw, of esparto or of other plaiting materials; basketware and wickerwork | 1.9 | 0.0 | 0.1 | 0.0 |
| 47 | Pulp of wood or of other fibrous cellulosic material; waste and scrap of paper or paperboard | 0.4 | 0.0 | 7.4 | 0.0 |
| 48 | Paper or paperboard; articles of paper pulp, of paper or paperboard | 653.5 | 1.1 | 73.8 | 0.2 |
| 49 | Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans | 216.4 | 0.3 | 7.9 | 0.0 |
| 50 | Silk | 0.7 | 0.0 | 0.5 | 0.0 |
| 51 | Wool, fine and coarse animal hair, horsehair yarn and woven fabric | 1.6 | 0.0 | 0.1 | 0.0 |
| 52 | Cotton | 72.1 | 0.1 | 1.4 | 0.0 |
| 53 | Other vegetable textile fibres; paper yarn and woven fabrics of paper yarn | 18.0 | 0.0 | 0.1 | 0.0 |
| 54 | Man-made filaments | 24.7 | 0.0 | 0.2 | 0.0 |
| 55 | Man-made staple fibres | 42.5 | 0.1 | 3.1 | 0.0 |
| 56 | Wadding felts and non wovens; special yarn; twine, cordage, ropes and cables and articles thereof | 30.8 | 0.0 | 5.4 | 0.0 |
| 57 | Carpets and other textile floor covering | 31.3 | 0.1 | 0.4 | 0.0 |
| 58 | Special woven fabrics; tufted textile fabrics; lace; tapestries;trimmings; embroidery | 23.4 | 0.0 | 62.8 | 0.1 |
| 59 | Impregnated, coated, covered or laminated textile fabrics; textile articles of a kind suitable for industrial use | 44.4 | 0.1 | 0.4 | 0.0 |
| 60 | Knitted or crocheted fabrics | 8.0 | 0.0 | 0.9 | 0.0 |
| 61 | Articles of apparel and clothing accessories, knitted or crocheted | 447.9 | 0.7 | 176.6 | 0.4 |
| 62 | Articles of apparel and clothing accessories, not knitted or crocheted | 441.2 | 0.7 | 263.3 | 0.6 |
| 63 | Other made up textile articles; sets; worn clothing and worn textile articles;rags | 213.9 | 0.3 | 102.1 | 0.2 |
| 64 | Footwear, gaiters and the like; parts of such articles | 407.6 | 0.7 | 8.1 | 0.0 |

Table 5.1: Top 100 Imported Commodities - 2012 (Million Pula)

| Rank | HS Code | Description | Value | \% |
| :---: | :---: | :---: | :---: | :---: |
| 1 | 71023100 | Non-industrial diamonds unworked or simply sawn, cleaved or bruted | 16,079.5 | 25.9 |
| 2 | 27101230 | Distilate fuel | 3,249.5 | 5.2 |
| 3 | 27101202 | Petrol | 2,705.0 | 4.4 |
| 4 | 27160000 | Electrical energy | 1,805.3 | 2.9 |
| 5 | 87032390 | Other vehicles of a cylinder capacity exceeding 1500 cmcb but not exceeding 3000 cmcb NES | 1,214.2 | 2.0 |
| 6 | 30049000 | Other medicaments of mixed or unmixed products, for retail sale, NES | 758.7 | 1.2 |
| 7 | 87041090 | Other dumpers designed for off-highway use NES | 735.3 | 1.2 |
| 8 | 27101130 | Distillate fuel | 688.1 | 1.1 |
| 9 | 27101102 | Petrol | 675.0 | 1.1 |
| 10 | 85023900 | Generating sets,(excl.wind-powered) NES | 583.1 | 0.9 |
| 11 | 25232900 | Portland cement (excl. white) | 556.5 | 0.9 |
| 12 | 87043190 | Other motor vehicles for the transport of goods with G.V.M. not exceeding $5 \dagger$ NES | 475.0 | 0.8 |
| 13 | 84314990 | Other parts of boring or sinking machinery of subheading no.8430.41 or 8430.49 NES | 423.4 | 0.7 |
| 14 | 71023900 | Non-industrial diamonds, not mounted or set, NES | 398.3 | 0.6 |
| 15 | 88022000 | Aeroplanes and other aircraft, NES of an unladen weight $=<2000 \mathrm{~kg}$ | 377.1 | 0.6 |
| 16 | 84713000 | Portable digital ADP machines, weight <= 10 kg ,comprising at least CPU,keyboard \& display | 359.3 | 0.6 |
| 17 | 17019900 | Cane or beet sugar, in solid form, NES | 345.1 | 0.6 |
| 18 | 24022090 | Other Cigars of Tobacco or tobacco substitutes | 337.6 | 0.5 |
| 19 | 87089990 | Other parts and accessories of motor vehicles of heading no.87.01 to 87.05 NES | 286.6 | 0.5 |
| 20 | 10059010 | Dried kernels or grains fit for human comsumption, not further prepared or processed | 272.3 | 0.4 |
| 21 | 84295200 | Self-propelled bulldozers... with a 360* revolving superstructure | 247.3 | 0.4 |
| 22 | 34012000 | Soap in other forms, NES | 236.6 | 0.4 |
| 23 | 87032490 | Other vehicles of a cylinder capacity exceeding 3000cm3 | 221.7 | 0.4 |
| 24 | 84314100 | Buckets, shovels, grabs and grips of machinery of 84.26, 84.29 and 84.30 | 219.4 | 0.4 |
| 25 | 10079000 | Other Grain Sorghum | 218.5 | 0.4 |
| 26 | 31023000 | Ammonium nitrate | 201.2 | 0.3 |
| 27 | 73089090 | Other structures of steel/iron NES | 188.7 | 0.3 |
| 28 | 87042290 | Other vehicles for goods with GVM exceeding $5 \dagger$ but not exceeding $20 \dagger$ NES | 186.7 | 0.3 |
| 29 | 84295190 | Other front-end shovel loaders NES | 186.3 | 0.3 |
| 30 | 85177090 | Other telephone sets including telephones for cellular network or for other wireless network | 177.8 | 0.3 |
| 31 | 85171210 | Designed for use when carried in the hand or on the person | 170.4 | 0.3 |
| 32 | 85442090 | Other co-axial cable \& other co-axial electric conductors NES | 168.9 | 0.3 |
| 33 | 10019900 | Other Wheat and Meslin | 165.7 | 0.3 |
| 34 | 87032290 | Other vehicles of cylinder capacity exceeding 1000 cmsq but not exceeding 1500 cmsq NES | 164.5 | 0.3 |
| 35 | 84295900 | Self-propelled bulldozers, excavators..., NES | 163.7 | 0.3 |
| 36 | 27101252 | Other prepared lubricating oils | 162.3 | 0.3 |
| 37 | 40111000 | New pneumatic tyres, of rubber of a kind used on motor cars | 161.3 | 0.3 |
| 38 | 10070000 | Grain sorghum | 159.7 | 0.3 |
| 39 | 73269090 | Other articles of iron or steel wire NES | 158.3 | 0.3 |
| 40 | 84749000 | Parts of machinery of 84.74 | 151.2 | 0.2 |
| 41 | 85176200 | Machines for reception\&transmission or regeneration voice image,data incl switch | 149.8 | 0.2 |
| 42 | 44071000 | Coniferous wood sawn or chipped lengthwise, sliced or peeled, $>6 \mathrm{~mm}$ thick | 143.7 | 0.2 |

Table 5.1 Cont'd: Top 100 Imported Commodities - 2012 (Million Pula)

| Rank | HS Code | Description | Value | \% |
| :---: | :---: | :---: | :---: | :---: |
| 43 | 04029100 | Concentrated milk and cream, unsweetened (excl. in solid form) | 143.2 | 0.2 |
| 44 | 87021090 | Other motor vehicles for the transport of ten or more persons, including driver | 141.6 | 0.2 |
| 45 | 48191000 | Cartons, boxes and cases, of corrugated paper or paperboard | 138.9 | 0.2 |
| 46 | 33049990 | Other beauty or make-up preparations | 133.3 | 0.2 |
| 47 | 15121990 | Other sunflower,safflower,cotton-seed oil \& fractions not chemically modified NES | 131.4 | 0.2 |
| 48 | 20099010 | Fruit juices of mixtures of juices | 129.3 | 0.2 |

### 7.0 SOURCES AND METHODS OF IMTS

IMTS are compiled by the International Merchandise Trade Statistics Section of Statistics Botswana. International Merchandise Trade refers to external trade in goods only. International Service Trade Statistics (ISTS) are however not compiled by this section. The primary source of international merchandise trade data is the Customs \& Excise Division at the Botswana Unified Revenue Service (BURS). The Customs \& Excise Division is responsible for data capture for both computerized and manual borders, and the monthly raw data files are transferred to Statistics Botswana for data processing.

Until the April 2009 Monthly Digest, Botswana was practicing Relaxed Special Trade Type. The Relaxed Special Trade Type takes into account goods that are exported or imported for inward or outward customs processing while the Strict Special Trade Type does not include the same. Strict Special Trade Type comprises imports for home consumption, permanent exports, re-exports and goods cleared out of warehouse (exwarehouse) only.

In June 2009, the Botswana External Trade Database was revised to cater for General Trade Type as per the United Nations Statistics Division (UNSD) recommendations. The General Trade Type gives complete coverage of external trade as compared to the Special Trade Type. As a result of this, trade reported in the monthly digests for May 2009 onwards is based on the General Trade Type.

Imports are valued CIF (cost, insurance \& freight) while exports are valued FOB (free on board). The value of imports includes transport and insurance costs to the importing country. The Exports value consists only of the value of goods as they leave the exporting country.

## Time of Recording of Trade

IMTS is compiled using date of recording of trade as opposed to date of assessment of goods by customs. This means that as goods cross the border, trade is recorded and this is the reference month for compilation of IMTS. Some of these goods may however be held by customs for some time pending final assessment for tax or duty purposes.

If the final assessment is done later, for example two or three months, or even more, after the goods had crossed the border, the affected trade will then update trade for the particular month when the goods crossed the border, therefore it does not form part of trade for the month during which the final assessment was done. This is mostly common with imports. Revision of data for the month preceding the one under review will normally show high values as compared to revisions for other months due to more goods (from the previous month) being released after final assessment.

## Concepts and Definitions

Domestic Exports: These are goods originating from the compiling country, being permanently exported out of the country for consumption in the outside world. This includes products from customs inwards processing; for example, if a country imports wheat, processes the wheat into bread flour and exports the bread flour and bye products from the milling process, these will all leave the country as domestic exports.

Re-Exports:These are exports offoreign goods that were initially recorded as imports into the compiling country. These goods are exported in the same state that they came in except for wear and tear. An example will be re-exportation of a motor vehicle that was initially imported into the compiling country and after being used it is now being exported to a foreign country.

Total exports: This is the sum of domestic exports and re-exports
Imports: These are goods imported from the outside world, into the compiling country, for local consumption. This includes re-importation of locally produced goods that were initially exported and are now being imported back into the country.

Trade Balance (Net Export): This refers to the total value of goods exported minus the total value of goods imported by a given economy in a given period of time. A positive trade balance (trade surplus) indicates that a country is exporting more in value terms than it is importing. A negative trade balance (trade deficit) indicates that the country is importing more than it is exporting.

## Exclusions from IMTS

- Goods in Transit

This is trade that is simply passing through the compiling country solely for the purpose of being transported to another country

- Goods temporarily admitted or dispatched

These are goods that at the time of admission/dispatch, are intended to stay in the receiving country temporarily and that after their stay they will be returned in the same state. These goods include display equipment for trade fairs and exhibitions, commercial samples, means of transport, containers, equipment for working etc.

- Monetary Gold

This is gold to which the monetary authorities have title and is held as reserve assets.

- Issued banknotes and securities and coins in circulation

These goods represent evidence of financial claims and are excluded from IMTS

The above list of exclusions from IMTS is however not exhaustive and only a few that are common, simple, straightforward and easy to understand have been picked as examples.

### 8.0 APPENDICES

Appendix 1 Principal Imports
Chemicals \& Rubber Products: Chapters 28-40
Food, Beverages \& Tobacco: Chapters 01-24
Fuel: Chapters 27
Furniture: Chapter 94
Machinery \& Electric Equipment: Chapters 84 \& 85
Metals \& Metal Products: Chapters 72-83
Salt Ores \& Related Products: Chapters 25 \& 26
Textile \& Footwear: Chapters 50-67
Vehicle \& Transport Equipment: Chapters 86-89
Wood \& Paper Products: Chapters 44-49
Other Goods: This is the residual of Total Imports and Principal Imports
Appendix 2 Principal Exports
Copper \& Nickel:
26030000:Copper ores and concentrates
26040000:Nickel ores and concentrates
75011000:Nickel mattes
74011000:Copper mates

## Diamonds:

71021000:Unsorted diamonds
71022100:Industrial diamonds unworked or simply sawn, leaved or bruted
71022900:Industrial diamonds, not mounted or set; NES
71023100: Non-industrial diamonds unworked or simply sawn, cleaved or bruted
71023900: Non-industrial diamonds, not mounted or set, NES
Gold:
71081100:Non-monetory gold; powder
71081200:Non-monetory gold; other unwrought form
71081300: Non-monetory gold; other semi manufactured forms
Hides \& Skins: Chapter 41
Iron Steel \& Related Products: Chapters 72 \& 73
Machinery \& Electrical Equipment: Chapters 84 \& 85
Meat \& Meat Products: Chapter 02
Plastic \& Plastic Products: Chapters 39
Salt \& Soda Ash: Commodities 25010000 and 2836200
Textiles: Chapters 50-63
Vehicles \& Parts: Chapters 87
Other Goods: This is the residual of Total Exports and Principal Exports
