# INTERNATIONAL MERCHANDISE TRADE STATISTICS <br> ANNUAL REPORT 2016 

TABLE OF CONTENTS ..... 4
LIST OF TABLES .....  9
LIST OF CHARTS ..... 9
PREFACE ..... 6
CHAPTER 1:TOTAL TRADE. .....  8
1.1. Yearly Total Trade .....  8
1.1.1 Imports .....  8
1.1.2. Total Exports. .....  8
1.1.3 Trade balance .....  8
1.2. Monthly and Quarterly Trade .....  9
1.2.1 Imports. .....  9
1.2.1.1. Quarter on Quarter Comparison for 2016 Imports Compared to 2015 ..... 9
1.2.1.2. Comparison of 2016 Quarters with the preceding Quarter. ..... 10
1.2.2. Total Exports ..... 10
1.2.2.1 Quarter on Quarter Comparison for 2016 and 2015. ..... 10
1.2.2.2 Comparison of 2016 Quarter and the Preceding Quarter. ..... 10
1.2.3. Trade Balance ..... 10
CHAPTER 2: TRADE BY PRINCIPAL COMMODITIES. ..... 13
2.1. Composition of Principal Imports. ..... 13
2.1.1. Quarter on Quarter Comparison of Principal Imports for 2016 and 2015 ..... 13
2.1.2. Comparison of 2016 Quarters and the Preceding Quarter. ..... 14
2.2. Composition of Principal Exports. ..... 15
2.2.1. Quarter on Quarter Comparison of Principal Exports during 2016 and 2015. ..... 15
2.2.2. Comparison of 2016 Quarters and the Preceding Quarter. ..... 16
CHAPTER 3: DIRECTION OF TRADE ..... 18
3.1. Principal Imports by Source ..... 18
3.1.1. Principal Imports Commodity Groups as a Percentage of Total Imports at Country or Regional Level ..... 18
3.1.2. Principal Imports Commodity Groups by Region and Partner as a Percentage of Total Import Group ..... 18
3.2. Principal Exports by Destination. ..... 19
3.2.1. Principal Exports Commodity Groups as a Percentage of Total Exports at Country or Region level. ..... 20
3.2.2. Principal Exports Commodity Groups by Region and Partner as a Percentage of Total Export Group ..... 20
CHAPTER 4: TRADE AT CHAPTER LEVEL ..... 23
4.1. Total Imports by Chapter. ..... 23
4.2. Total Exports by Chapter. ..... 23
CHAPTER 5: MOST TRADED COMMODITIES ..... 25
5.1. The Most Imported Commodities ..... 25
5.2. The Most Traded Exports. ..... 25
CHAPTER 6. TRADE BY MODE OF TRANSPORT. ..... 27
6.1. Imports and Exports by Mode of Transport ..... 27
CHAPTER 7: TRADE BY OTHER COMMODITY CLASSIFICATIONS ..... 29
7.1. Standard International Trade Classification (SITC) ..... 29
7.1.1. Imports by Standard International Trade Classification (SITC) - 2016. ..... 29
7.1.2. Exports by Standard International Trade Classification (SITC) - 2016. ..... 30
7.2. Broad Economic Categories (BEC) ..... 31
7.2.1. Imports by Broad Economic Categories (BEC) ..... 31
7.2.2. Exports by Broad Economic Categories (BEC) ..... 32
8. TECHNICAL NOTES ..... 57
8.1. Time of Recording of Trade ..... 57
8.2. Concepts and Definitions ..... 57
8.3. Treatment of Diamonds from Aggregation Process. ..... 58
8.3.1. Sorting out Diamonds imports. ..... 58
8.3.2. Sorting out Diamonds exports. ..... 58
8.4. Exclusions from IMTS ..... 58
8.4.1. Goods in Transit ..... 58
8.4.2. Goods temporarily admitted or dispatched ..... 58
8.4.3. Monetary Gold ..... 59
8.4.4. Issued banknotes and securities and coins in circulation ..... 59
9. APPENDICES ..... 59
LIST OF TABLES
Table 1.1: Total Trade, 2012 - 2016 (Millions of Pula) ..... 9
Table 1.2: Monthly Total Trade, 2015 \& 2016 (Millions of Pula) ..... 34

The current report presents International Merchandise Trade Statistics (IMTS) for Botswana during 2016. This report follows the 2015 IMTS Annual Report which was published in April 2018. Reports for 2013 and 2014 were skipped in an effort to provide close to recent information. The omitted reports will be produced at a later stage to complete the series.

Botswana International Merchandise Trade Statistics is mainly based on the Harmonized Commodity Description \& Coding System (HS Codes). Other commodity classifications discussed in this report are the Standard International Trade Classification (SITC) and the Broad Economic Categories (BEC). Users are advised that the Principal Commodity Group, "Textiles \& Footwear", has been revised to remove commodities that did not fit well in the group. The removed commodities now form part of the residual group referred to as "Other goods"

During 2016, imports were valued at P66, 864.9 million, having decreased by 8.6 percent from the value of P73, 191.9 million during the previous year. Exports recorded a value of P80, 336.5 million compared to P63, 484.3 million in 2015 , giving an increase of 26.5 percent. The top four import commodity groups were Diamonds at 28.3 percent, Machinery \& Electrical Equipment at 13.7 percent, Fuel at 12.9 percent and Food, Beverages \& Tobacco at 11.2 percent. Diamonds and Copper \& Nickel were the major export groups at 88.1 percent and 3.3 percent respectively, of total exports during the year.

The major sources of imports into Botswana were South Africa at 64.6 percent followed by Namibia and Canada at 10.5 percent and 5.6 percent respectively during the year under review. During 2016, the main destinations for exports were Belgium at 18.9 percent, India at 15.1 percent, South Africa at 13.6 percent and Namibia at 11.6 percent.

This report is divided into two parts, the first part carries discussions on IMTS during 2016 while the second part presents tables on which these discussions are based. The discussions are further divided into chapters and sections. Tables presented in part two are linked to the chapters and sections through table numbers.

For more information contact the Directorate of Stakeholder Relations at 3671300. All Statistics Botswana publications are available on the website at www.statsbots.org.bw, and at the Statistics Botswana Information Resource Centre (Head-Office, Gaborone).

I sincerely thank all stakeholders involved in the formulation of this annual report, for their continued support and feedback, as we strive to better serve users of our products and services.

Trade statistics is vital for formulation of monetary, fiscal, commercial and regional integration policies. As a result this report is used by different researchers and investors in understanding the market for purposes of identifying viable products. IMTS is also used as a basis for trade negotiations by various government institutions. Total imports value is mainly influenced by six groups, being Diamonds; Machinery \& Electrical Equipment; Fuel; Food, Beverages \& Tobacco; Chemicals \& Rubber Products and Vehicles \& Transport Equipment.

Mining plays a very important role in the economy of Botswana, as a result, the value of total exports is heavily dependent on exports of rough diamonds. Exports of Textiles and Meat \& Meat Products are to a less extent influential as far as the value of total exports is concerned.

This section deals with the components of total trade, which are; imports, total exports and trade balance. Total exports refer to the sum of domestic exports (exports of Botswana origin) and re-exports (goods which were exported in the same condition as imported or after undergoing minor transformation which leaves them not substantially changed). Imports are based on cost, insurance and freight (CIF) value. Trade balance is the difference between total exports and imports for a given period of time. The components of IMTS are presented on Table 1.1, which gives annual data for the period covering 2012 to 2016 . Table 1.2 gives monthly, quarterly and yearly figures for 2015 and 2016.

### 1.1. Yearly Total Trade

Yearly Total Trade presents total exports, imports and trade balance. Discussions on yearly total trade are based on Table 1.1. The discussions in the sub-sections below focus on 2016 total trade and comparison is also made to 2015 total trade.

### 1.1.1 Imports

Imports are valued CIF, which includes the cost of the commodity plus insurance and freight charges, but excludes customs or any other duty paid. During 2016, total Imports were valued at P66, 864.9 million showing a decrease of 8.6 percent (P6, 327.0 million) from the revised 2015 import value of P73, 191.9 million. This decrease was mainly attributed to decreases in commodities such as Diamonds, Fuel, Vehicles \& Transport Equipment, Salt Ores \& Related Products and Textiles \& Footwear. Diamonds had the highest decrease of 25.1 percent ( $\mathrm{P} 6,326.7$ million) from P25, 231.7 million in 2015 to $P 18,905.0$ million in 2016 . Salt Ores \& Related Products decreased by 16.2 percent ( P 290.9 million) from the value of $\mathrm{P} 1,797.2$ million registered during 2015 to P1, 506.3 million in 2016. Textiles \& Footwear also decreased by 4.7 percent (P95.4 million) from P2, 031.2 million in 2015 to $\mathrm{P} 1,935.8$ million in 2016. Vehicles \& Transport Equipment decreased by 5.5 percent (P291.5 million) from the value of P5, 324.4 million registered during 2015 to P5, 033.0 million in 2016 . Fuel decreased by 5.1 percent ( P 468.1 million) from the value of $\mathrm{P} 9,116.7$ million registered during 2015 to $\mathrm{P} 8,648.6$ million in 2016 (Table 2.1 A).

### 1.1.2. Total Exports

Exports are valued Free On Board (FOB), i.e. there are no charges to the buyer for goods placed on board a carrier at the point of shipment (Consignment). Total exports were valued at P80, 336.5 million during 2016, compared to $\mathrm{P} 63,484.3$ million of 2015 . This shows an increase of 26.5 percent ( $\mathrm{P} 16,852.2$ million). The increase was mainly due to the increase in Diamonds exports, having risen by 34.2 percent ( $\mathrm{P} 18,050.3$ million) from P52, 730.4 million during 2015 to P70, 780.7 million during 2016. Gold and Salt \& Soda Ash are other commodities which recorded increases in 2016, having increased by 47.0 percent (P135.6 million) and 21.1 percent (P125.3 million) respectively.

### 1.1.3 Trade balance

During 2016, Botswana recorded a trade surplus of $P 13,471.6$ million compared to trade deficit of P9, 707.6 million that was recorded in 2015. The trade surplus was influenced by the increase in exports of diamonds.

| Flow Type /Year | $\mathbf{2 0 1 2}$ | $\mathbf{2 0 1 3}$ | $\mathbf{2 0 1 4}$ | $\mathbf{2 0 1 5}$ | $\mathbf{2 0 1 6}$ |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Imports | $62,115.3$ | $70,219.1$ | $72,427.1$ | $73,191.9$ | $66,864.9$ |
| Domestic Exports | $44,805.8$ | $64,749.3$ | $74,310.1$ | $61,108.7$ | $77,819.6$ |
| Re- Export | $1,109.7$ | $1,655.3$ | $1,951.1$ | $2,375.6$ | $2,516.9$ |
| Total Exports | $45,915.5$ | $66,404.6$ | $76,261.3$ | $63,484.3$ | $80,336.5$ |
| Trade Balance | $\mathbf{( 1 6 , 1 9 9 . 8 )}$ | $(3,814.4)$ | $3,834.2$ | $(9,707.6)$ | $\mathbf{1 3 , 4 7 1 . 6}$ |

( ) denotes negative numbers

Chart 1.1 which is based on Table 1.1, gives the graphical presentation of components of total trade from 2012 to 2016. It is evident from this graph that imports were higher than exports during most of the period displayed except for 2014 and 2016. As a result, most of the years registered trade deficits. Trade deficits are more pronounced for 2012, followed by 2015. The year under review and 2014 recorded trade surplus.

Chart 1.1: Total Trade, 2012-2016 (Millions of Pula)

### 1.2. Monthly and Quarterly Trade

This section presents components of total trade by month, quarter and year for 2016 and 2015 only. The associated data is carried in Table 1.2. The graphical presentation of these components of total trade is given in Chart 1.2, which is based on this table.

### 1.2.1 Imports

Table 1.2 shows that comparison of quarterly data for 2016 and 2015 (quarter on quarter) shows that the first three (3) quarters of 2016 registered decreases over 2015 imports for corresponding quarters except for fourth quarter.

### 1.2.1.1. Quarter on Quarter Comparison for 2016 Imports Compared to 2015

Comparison of quarter on quarter import values recorded during 2016 and 2015 shows that the first quarter of 2016 registered a decrease of 10.3 percent ( $\mathrm{P} 1,887.9$ million) from the value of $P 18,268.2$ million registered during 2015 first quarter to P16, 380.3 million during the same quarter of the current year. The Second quarter of 2016 total imports, valued at P17, 194.7 million, registered a decrease of 12.9 percent ( $\mathrm{P} 2,556.5$ million) compared to P19, 751.2 million recorded during 2015 same quarter.

During the third quarter of 2016, total imports were valued at P16, 018.2 million, having decreased by 11.5 percent (P2, 078.8 million) compared to the value of P18, 097.0 million registered during the corresponding
quarter of 2015.
The fourth quarter of 2016 total imports, valued at P17, 271.7 million, registered an increase of 1.1 percent (P196.3 million) compared to P17, 075.4 million recorded during 2015 fourth quarter.

### 1.2.1.2. Comparison of 2016 Quarters with the preceding Quarter

During the first quarter of 2016, imports were valued at P16, 380.3 million, having decreased by 4.1 percent (P695.1 million) over the value of P17, 075.4 million recorded during 2015 fourth quarter.

The second quarter of 2016 shows an increase of 5.0 percent (P814.4 million) in total imports value, from P16, 380.3 million registered during the first quarter of the same year to P17, 194.7 million recorded during second quarter.

Comparison of the third and second quarters of 2016 shows a decrease of 6.8 percent ( $\mathrm{P} 1,176.4$ million) from to P17, 194.7 million recorded during the second quarter to P16, 018.2 million registered during the third quarter.

The fourth quarter of 2016 recorded an increase of 7.8 percent ( $\mathrm{P} 1,253.5$ million) in total imports value, from P16, 018.2 million recorded during the third quarter to P17, 271.7 million recorded during the fourth quarter of the same year.

### 1.2.2. Total Exports

Comparison of Quarterly data for 2016 and 2015 (quarter on quarter differences) shows that all the four (4) quarters of 2016 recorded increases over 2015 total exports for corresponding quarters. All discussions carried on this sub-section are based on Table 1.2.

### 1.2.2.1 Quarter on Quarter Comparison for 2016 and 2015

The quarter on quarter comparison for total exports during 2016 and 2015 shows that the first quarter of 2016 recorded an increase of 2.0 percent (P399.0 million) from P19, 486.3 million recorded during the first quarter of 2015 to P19, 885.3 million during the same quarter in 2016.

During the second quarter of 2016, total exports registered an increase of 28.2 percent (P5,591.3 million) from P19, 797.6 million recorded during the second quarter of 2015 to P25, 389.0 million during the same quarter of the year under review.

Comparison of the third quarters of 2016 and 2015 shows an increase of 59.8 percent ( $\mathrm{P} 7,077.8$ million) from P11, 832.9 million recorded during 2015 third quarter to $P 18,910.7$ million registered during the same quarter in 2016.

Total exports value recorded during the fourth quarter of 2016 (P16, 151.5 million) shows an increase of 30.6 percent (P3, 784.1 million) compared to the value of P12, 367.4 million registered during the fourth quarter of 2015.

### 1.2.2.2 Comparison of 2016 Quarter and the Preceding Quarter

Total exports value registered during the first quarter of 2016 compared to the fourth quarter of 2015 shows an increase of 60.8 percent (P7, 517.9 million), from P12, 367.4 million recorded during 2015 fourth quarter to P19, 885.3 million during 2016 first quarter.

Comparison of the second and first quarters of 2016 shows an increase of 27.7 percent (P5,503.7 million) from P19, 885.3 million registered during the first quarter to P25, 389.0 million recorded during the second quarter.

During the third quarter of 2016, total exports were valued at P18, 910.7 million, having decreased by 25.5 percent (P6, 478.3 million) compared to P25, 389.0 million recorded during the second quarter of the same year.

The fourth quarter of 2016 registered a decrease of 14.6 percent ( $P 2,759.2$ million) from the value of $P 18,910.7$ million recorded during the third quarter to P16, 151.5 million during the fourth quarter of the same year.

### 1.2.3. Trade Balance

During 2016, seven months registered trade surplus, while five months (March, July, August, October and December) recorded trade deficits. In 2015, nine months registered trade deficits, in the exception of January, March and May. Movements on trade balance are better depicted by Chart 1.2 which is based on Table 1.2.

The imports trend line starts at around four billion Pula in January 2015 and reaches the highest peak of just above seven billion during June 2015, closing the two year period with just over five billion during December 2016.

The total exports trend line starts just below six billion in January 2015, reaching the highest peak of just above eight billion during May 2016 and closing the period with just over five billion during December 2016.

Table 1.2 shows that the worst monthly trade deficit of P3, 475.6 million was recorded during August 2015, while the highest trade surplus is noticeable during May 2016, at P4, 099.0 million.

Chart 1.2: Total Trade, 2015 and 2016 (Millions of Pula)

## CHAPTER 2:

 TRADE BY PRINCIPAL COMMODITIES
## CHAPTER 2: TRADE BY PRINCIPAL COMMODITIES

Principal commodity groups refer to commodities grouped together to form major groups of related commodities. Commodities forming a group may be of related chapters, for example; "Machinery \& Electrical Equipment" which combines machines and electrical appliances; "Vehicles \& Transport Equipment" which combines vehicles and other equipment used for transport purposes.

In some cases it becomes a challenge to come up with further groups of related chapters or commodities. This is in the case when commodity groupings' contributions to the total remain minimal. In such cases, the commodities are grouped together under one category called "Other".

### 2.1. Composition of Principal Imports

The discussion on principal imports is based on Table 2.1A and Table 2.1B which present values on principal imports and percentage distributions to total imports in a given period, respectively, for these groups. Total imports were valued at P66, 864.9 million during 2016, showing a decrease of 8.6 percent (P6, 327.1 million) as compared to P73, 191.9 million recorded during 2015. In 2016, the principal imports commodity groups were driven mainly by six groups, being Diamonds; Machinery \& Electrical Equipment; Fuel; Food, Beverages \& Tobacco; Chemicals \& Rubber Products and Vehicles \& Transport Equipment. The six commodity groups mentioned above made a combined contribution of 83.4 percent (P55, 810.8 million) to total import value in 2016 compared to 85.2 percent (P62, 291.4 million) contributed by the same product to total imports in 2015.

Diamonds registered the highest contribution of 28.3 percent (P18, 905.0 million) to total imports (P66, 864.9 million), followed by Machinery \& Electrical Equipment with 13.7 percent (P9, 186.4 million). The third most contributing group was Fuel with 12.9 percent (P8, 648.6 million) followed by Food, Beverages \& Tobacco with 11.2 percent (P7, 478.4 million). Chemicals \& Rubber Products and Vehicles \& Transport Equipment followed with 9.8 percent ( $P 6,559.4$ million) and 7.5 percent ( $P 5,033.0$ million) respectively.

### 2.1.1. Quarter on Quarter Comparison of Principal Imports for 2016 and 2015

Quarter on quarter comparison for total imports during 2016 and 2015 shows that the first quarter of 2016 registered a decrease of 10.3 percent ( $\mathrm{P} 1,887.9$ million) from P18, 268.2 million during the same quarter in 2015 to P16, 380.3 million recorded during the first quarter of the current year.

During the first quarter of 2016, Diamonds contributed the most to total imports with 34.5 percent (P5, 645.1 million) of P16, 380.3 million compared to a contribution of 36.2 percent ( $\mathrm{P} 6,618.6$ million) of $\mathrm{P} 18,268.2$ million for the same quarter during the previous year. Fuel followed with a contribution of 12.8 percent (P2, 094.4 million) to first quarter total imports in 2016 as compared to a contribution of 14.1 percent (P2, 581.3 million) to total imports during 2015 first quarter. This was followed by Machinery \& Electrical Equipment, which contributed 11.9 percent ( $\mathrm{Pl}, 947.1$ million) to total imports during the first quarter of 2016 compared to a contribution of 10.9 percent ( $\mathrm{P} 1,993.9$ million) during the same quarter in 2015 . It can be observed from Table 2.1A and Table 2.1B that the percentages contributions for Machinery \& Electrical Equipment quarterly totals to total imports during the first quarters of both 2016 and 2015 did not differ much.

Food, Beverages \& Tobacco contributed 10.3 percent (P1, 681.9 million) to total imports during quarter one of 2016 compared to a contribution of 8.9 percent ( $\mathrm{Pl}, 625.3$ million) to total imports during 2015 first quarter. Comparison of contributions made by other import commodity groups to total imports during the first quarter total imports for 2016 and 2015 can be observed on Table 2.1A and Table 2.1B.

During the second quarter of 2016 imports were valued at P17, 194.7 million compared to P19, 751.2 million recorded during the same quarter in 2015. Diamonds contributed the most to total imports during the second quarter of 2016 with 26.2 percent ( $P 4,504.2$ million) compared to a 40.1 percent (P7, 920.4 million) contribution registered for the same quarter in 2015. Fuel followed with a contribution of 16.1 percent ( $\mathrm{P} 2,776.3$ million) compared to a contribution of 10.7 percent (P2, 107.8 million) during 2015 second quarter. Machinery \& Electrical Equipment contributed 13.7 percent (P2, 359.2 million) compared to a contribution of 11.9 percent (P2, 359.5 million) to total imports during the same quarter in 2015.

Comparison for the third quarter of 2016 and the same quarter in 2015 shows that Diamonds constituted 22.8 percent ( $\mathrm{P} 3,652.6$ million) of $\mathrm{P} 16,018.2$ million during the third quarter of 2016 as compared to 33.2 percent (P6, 012.9 million) of P18, 097.3 million during 2015 quarter three. This was followed by Machinery \& Electrical Equipment with 14.6 percent (P2, 336.7 million) contribution during the third quarter of 2016 compared to 14.0 percent (P2, 525.3 million) during 2015 third quarter. Food, Beverages \& Tobacco contributed 12.0 percent (P1, 928.3 million) to 2016 third quarter total imports (P16, 018.2 million) compared to a contribution of 9.7 percent
(P1, 762.7 million) of $\mathrm{P} 18,097.0$ million during 2015 third quarter. Fuel made a contribution of 11.9 percent (P1, 905.1 million) to total imports during the third quarter of 2016, compared to a contribution of 12.9 percent (P2, 331.9 million) made by the same commodity group to 2015 third quarter total imports.

Diamonds registered a contribution of 29.5 percent (P5, 103.0 million) during the fourth quarter of 2016, compared to 27.4 percent (P4, 679.9 million) during 2015 fourth quarter. This was followed by Machinery \& Electrical Equipment with 14.7 percent (P2, 543.4 million) contribution during the fourth quarter of 2016 compared to 13.7 percent (P2, 331.0 million) during 2015 same quarter. Food, Beverages \& Tobacco contributed 12.6 percent (P2, 169.9 million) to 2016 fourth quarter total imports compared to a slightly lower contribution of 12.1 percent ( $\mathrm{P} 2,070.2$ million) during 2015 fourth quarter. Fuel contributed 10.8 percent ( P 1 , 872.8 million) to total imports during the fourth quarter of 2016 compared to a contribution of 12.3 percent (P2, 095.7 million) to total imports during the fourth quarter of 2015.

Percentage distributions for other Principal Import Commodity Groups can be observed on Table 2.1B which is based on Table 2.1A. The graphical presentation of Principal Import Commodity Groups for 2016 compared to 2015 is displayed on Chart 2.1.

Chart 2.1: Comparison of Principal Import Commodity Groups - 2016 and 2015 (Percentage Distributions)

Note: Other Goods, include All Other Goods not specified in Table 2.1 B

### 2.1.2. Comparison of 2016 Quarters and the Preceding Quarter

This subsection compares Principal Import Commodity Groups for 2016 quarters, each quarter compared to what was recorded during the preceding quarter and the discussion is based on Table 2.1 A.

Comparison for the first quarter of 2016 and the fourth quarter of 2015 shows a decrease of 4.1 percent (P695.1 million). The decrease was mainly attributed to decrease in Food, Beverages \& Tobacco and Machinery \& Electrical Equipment. Food, Beverages \& Tobacco decreased by 18.8 percent (P388.3 million) from P2, 070.2 million recorded during the fourth quarter of 2015 to P1, 681.9 million for the first quarter of 2016. Machinery \& Electrical Equipment decreased by 16.5 percent (P383.9 million) from P2, 331.2 million recorded during the fourth quarter of 2015 compared to P1, 947.1 million for the first quarter of 2016.

The second quarter of 2016 shows an increase of 5.0 percent (P814.4 million) in total imports value, from P16, 380.3 million recorded during the first quarter to $\mathrm{P} 17,194.7$ million registered during the second quarter of the same year. Fuel registered the highest contribution of 16.1 percent ( $\mathrm{P} 2,776.3$ million) to total imports during the second quarter of 2016 compared to 12.8 percent (P2, 094.4 million) for the first quarter in 2016 . Chemicals \& Rubber Products followed with a contribution of 10.5 percent ( $\mathrm{P} 1,805.2$ million) during 2016 second quarter compared to 7.8 percent (P1, 279.1 million) for first quarter of the same year.

During the third quarter of 2016, imports were valued at P16, 018.2 million compared to P 17 , 194.7 million recorded during the second quarter of 2016. The decrease was attributed to Diamonds which recorded the value of P3, 652.6 million, giving a decrease of 18.9 percent (P851.6 million) compared to the value of P4, 504.2 million during the previous quarter. This was followed by Machinery \& Electrical Equipment with 14.6 percent (P2, 336.7 million) contribution during the third quarter of 2016 compared to 13.7 percent (P2, 359.2 million) during second quarter of 2016.

Comparison of values recorded during the last quarter of 2016, and the third quarter of the same year shows that the Diamonds commodity group increased by 39.7 percent (P1, 450.4 million), from P3, 652.6 million recorded during the third quarter to P5, 103.0 million recorded during the last quarter of the same year. Food, Beverages \& Tobacco registered an increase of 12.5 percent ( P 241.6 million) from $\mathrm{P} 1,698.4$ million recorded during 2016 third quarter to P2, 169.9 million for fourth quarter of 2016.

### 2.2. Composition of Principal Exports

Botswana's principal exports consisted mainly of three (3) major commodity groups; these being Diamonds, Copper \& Nickel and Machinery \& Electrical Equipment during 2016. Discussions on major export groups are based on Tables 2.2A and 2.2B.

Diamonds discussed here consist of those from the aggregation process as well as those from diamond polishing or manufacturing companies. Machinery \& Electrical Equipment include those that were originally imported for home consumption and are now being re-exported for reasons known by the exporter.
During 2016, total exports were valued at P80, 336.5 million. Diamonds registered the highest contribution of 88.1 percent (P70, 780.7 million), followed by Copper \& Nickel with 3.3 percent (P2, 631.1 million) and Machinery \& Electrical Equipment with a contribution of 2.6 percent (P2, 066.0 million) to total exports during 2016.

### 2.2.1. Quarter on Quarter Comparison of Principal Exports during 2016 and 2015

The quarterly data follows a similar trend to that of the yearly data for 2016, with Diamonds, Copper \& Nickel and Machinery \& Electrical Equipment continuing to be the three major groups.

Comparison for the first quarter of 2016 and the same quarter in 2015 shows that Diamonds constituted 85.5 percent (P17, 003.1 million) of P19, 885.3 million during the first quarter of 2016 compared to 84.6 percent (P16, 477.1 million) of $P 19,486.3$ million during 2015 first quarter.

During the second quarter of 2016, Diamonds contributed 89.6 percent ( $\mathrm{P} 22,740.6$ million) of $\mathrm{P} 25,389.0$ million compared to a contribution of 83.9 percent ( $\mathrm{P} 16,618.5$ million) of P19, 797.6 million during 2015 second quarter.

The same commodity group contributed 87.7 percent ( $\mathrm{P} 16,580.6$ million) to $\mathrm{P} 18,910.7$ million during the third quarter of 2016 compared to a contribution of 81.2 percent (P9, 608.9 million) to P11, 832.9 million during the same quarter of the previous year.

The Diamonds group contributed 89.5 percent ( $\mathrm{P} 14,456.5$ million) of $\mathrm{P} 16,151.5$ million during the fourth quarter of 2016 compared to a contribution of 81.1 percent (P10, 025.9 million) of P12, 367.4 million during 2015 fourth quarter.

During the first quarter of 2016, Copper \& Nickel recorded 6.1 percent ( $\mathrm{P} 1,208.6$ million) of $\mathrm{P} 19,885.3$ million compared to 6.9 percent ( $\mathrm{P} 1,343.8$ million) of $\mathrm{P} 19,486.3$ million during the first quarter of the previous year.

Comparison of the second quarters shows that Copper \& Nickel constituted 3.3 percent (P833.1 million) of P25, 389.0 million during 2016 second quarter compared to 6.6 percent ( $\mathrm{P} 1,308.5$ million) of $\mathrm{P} 19,797.6$ million during the second quarter of 2015.

The third quarters of 2016 and 2015 comparison shows that the Copper \& Nickel group constituted 2.8 percent (P535.7 million) of P18, 910.7 million during 2016 third quarter compared to a contribution of 3.2 percent (P374.8 million) of P11, 832.9 million during 2015 quarter three.

During the fourth quarter of 2016, the Copper Nickel commodity group contributed 0.3 percent (P53.7 million) of P16, 151.5 million compared to a contribution of 6.2 percent (P762.8 million) of $P 12,367.4$ million for the same quarter of the previous year. The contribution during the fourth quarter of 2016 is insignificant as the mine producing these commodities was closed at the beginning of the quarter (October 2016).

Percentage distributions of other commodity groups can be observed on Table 2.2B while Chart 2.2 displays percentage distributions for the year 2016 as a whole.

Chart 2.2: Principal Export Commodity Groups - 2015 and 2016 (Percentage Distributions)

Note: Other Goods, include All Other Goods not specified in Table 2.2 B

### 2.2.2. Comparison of 2016 Quarters and the Preceding Quarter

This subsection compares Principal Export Commodity Groups for 2016 quarters, each quarter compared to what was recorded during the preceding quarter and the discussion is based on Table 2.2A.

During 2016 first quarter, Diamond exports were valued at P17,003.1 million, giving an increase of 69.6 percent (P6, 977.2 million) over the value of P10, 025.9 million recorded during the last quarter of 2015. The Diamond group registered an increase of 33.7 percent (P5, 737.5 million) in total exports value, from P17, 003.1 million recorded during first quarter of 2016 to P22, 740.6 million registered during the second quarter of the same year.

Comparison of the third and second quarters of 2016 shows that export values for the same commodity group gives a decrease of 27.1 percent ( $\mathrm{P} 6,160.0$ million) from $\mathrm{P} 22,740.6$ million during the second quarter to P 16 , 580.6 million during the third quarter. During the fourth quarter of the same year, the Diamond group exports decreased by 12.8 percent ( P 2.124 .1 million) from P16,580.6 million recorded during third quarter to P14, 456.5 million in fourth quarter.

With regard to Copper \& Nickel exports, the first quarter of 2016 recorded P1, 208.6 million, which was an increase of 58.4 percent ( P 445.8 million) from P762.8 million during the fourth quarter of 2015. During the second quarter of 2016 a decrease of 31.1 percent ( P 375.5 million) was registered from $\mathrm{P} 1,208.6$ million during the first quarter to P833.1 million during the second quarter.

During the third quarter of 2016, exports of Copper \& Nickel group recorded a decrease of 35.7 percent (P297.4 million) from P833.1 million during the second quarter to P535.7 million during the third quarter of the same year.

Comparison of the fourth and third quarters of 2016 shows that the same commodity group recorded a decrease of 89.9 percent (P482.0 million) from P535.7 million during the third quarter to P53.7 million during the fourth quarter, but this was mainly attributable to the closure of the associated mines during October 2016.

## CHAPTER 3: DIRECTION OF TRADE

Direction of trade presents trade by major trading partners for principal commodity groups. Section 3.1 discusses principal imports by source at region and country level while Section 3.2 deals with destination of principal exports at region and country level. At country level, only those countries that had significant trade with Botswana during 2016 are shown separately while those with insignificant trade are grouped together under one category referred to as "Other".

### 3.1. Principal Imports by Source

Principal Import Commodity Groups at Region and Country level, in value terms, are presented on Table 3.1A, while tables 3.1B \& 3.1C display percentage distributions based on Table 3.1A.

### 3.1.1. Principal Imports Commodity Groups as a Percentage of Total Imports at Country or Regional Level

This Sub-Section discusses import groups presented as percentages of total imports at region and major trading partner countries. The associated percentage distributions are presented in Table 3.1 B which is based on Table 3.1A. The column totals of Table 3.1B give import groups as a percentage of total yearly imports, the same information that is presented in Chapter Two, Chart 2.1.

Total imports were valued at P66, 864.9 million during 2016. Southern African Customs Union (SACU) was the major source of imports into Botswana, accounting for 75.3 percent (P50, 320.0 million). South Africa was the main source of imports within the Union with a contribution of 64.6 percent (P43, 168.7 million), followed by Namibia, having contributed 10.5 percent (P7, 023.4 million) to total imports during the year.

The major commodity groups imported from South Africa were; Fuel; Food, Beverages \& Tobacco; Machinery \& Electrical Equipment; Diamonds; Chemicals \& Rubber Products and Vehicles \& Transport Equipment. Fuel contributed the highest to total imports from South Africa during 2016, at 16.3 percent (P7, 016.8 million), followed by Food, Beverages \& Tobacco with 15.9 percent (P6, 880.4 million). Machinery \& Electrical Equipment and Diamonds contributed 14.0 percent ( $\mathrm{P} 6,059.1$ million) and 12.9 percent ( $\mathrm{P} 5,560.6$ million) respectively. Chemicals \& Rubber Products contributed 10.7 percent (P4, 620.0 million) and Vehicles \& Transport Equipment recorded 9.0 percent (P3, 870.6 million) of total imports from South Africa during the year under review.

Total imports from the European Union (EU) were valued at P4, 528.5 million during the year under review, accounting for 6.8 percent of 2016 total imports (Table 3.1 C ). The imported goods from the EU consisted mainly of Diamonds at 44.0 percent (P1, 992.3 million) followed by Machinery \& Electrical Equipment with 27.1 percent ( $\mathrm{Pl}, 225.7$ million) of total imports from that region during 2016 (Refer to Tables 3.1A \& 3.1B).

Asia supplied imports valued at P5, 468.9 million, accounting for 8.2 percent of total imports during 2016 (Table 3.1C). The commodities imported from Asia were mainly Machinery \& Electrical Equipment at 27.5 percent (P1, 502.6 million), Chemical \& Rubber Products at 24.3 percent ( $\mathrm{P} 1,328.7$ million) and Diamonds with a contribution of 21.9 percent ( $\mathrm{P} 1,200.0$ million) of total imports from the region during the year under review.

During 2016, Canada supplied imports representing 5.6 percent ( $\mathrm{P} 3,760.7$ million) of the total imports, mainly consisting of Diamonds which accounted for 95.3 percent (P3, 582.8 million) of total imports from that country.

### 3.1.2. Principal Imports Commodity Groups by Region and Partner as a Percentage of Total Import Group

Table 3.1C presents percentage distributions for principal import groups by country and region as a percentage of total import groups during 2016. This table is also based on Table 3.1A.

Graphical representation of percentage distributions of import groups by major trading partners during 2016 is given on Chart 3.1.

Diamonds were mostly imported from Namibia 34.5 percent (P6, 519.8 million), followed by South Africa with 29.4 percent (P5, 560.6 million), Canada 19.0 percent ( $\mathrm{P} 3,582.8$ million) and Belgium 8.4 percent (P1, 581. 7 million) during the year under review. Diamonds from Canada, Namibia and South Africa are imported mainly for aggregation process (Table 3.1 C).

During 2016, Machinery \& Electrical Equipment were valued at P9, 186.4 million. South Africa supplied 66.0 percent (P6, 059.1 million) followed by Germany with 7.9 percent (P723.7 million). China and Korea supplied 4.8 percent (P444.4 million) and 4.6 percent (P420.7 million) of total imports of Machinery \& Electrical Equipment respectively during the year under review.

Fuel was mostly imported from South Africa at 81.1 percent (P7, 016.8 million) of total imports of the commodity group during 2016. Mozambique and Namibia supplied 14.9 percent ( $\mathrm{P} 1,284.4$ million) and 3.3 percent ( P 286.9 million) of the same product respectively.

Total Imports for Food Beverages \& Tobacco were valued at P7, 478.4 million with 92.0 percent (P6, 880.4 million) imported from South Africa while 1.5 percent ( P 114.2 million) and 1.4 percent ( P 104.9 million) came from Zimbabwe and Zambia respectively.

During 2016, Chemicals \& Rubber Products imports were valued at P6, 559.4 million with 70.4 percent (P4, 620.0 million) imported from South Africa while India supplied 17.3 percent ( $\mathrm{P} 1,136.0$ million) of the same commodity group.

Imports of Vehicles \& Transport Equipment registered a value of P5, 033.0 million. South Africa contributed 76.9 percent (P3, 870.6 million) while Japan accounted for 7.9 percent (P396.3 million) of the commodity group. France and the USA respectively supplied 4.7 percent ( P 234.8 million) and 3.5 percent ( P 178.6 million) of the same commodity group.

Chart 3.1: Total Imports by Region and Partner - 2016 (Percentage Distributions)

Note: Others includes all other trading partners not specified as in Table 3.1 A

### 3.2. Principal Exports by Destination

Discussions on major exports by destination for 2016 are based on tables 3.2A, B and C, with Table 3.2A presenting values while percentage distributions appear on Table 3.2B and Table 3.2C.

Table 3.2A and Table 3.2C show that during 2016, total exports destined to Asia were valued at P32, 646.4 million, representing 40.6 percent of the total exports (P80, 336.5 million). India received 15.1 percent (P12, 145.2 million) of total exports while United Arab Emirates (UAE) got 9.7 percent (P7, 774.4 million) and Israel received 6.1 percent (P4, 868.8 million). Singapore received 5.6 percent (P4, 528.0 million) of total exports during the year under review.

Exports destined to the SACU region were valued at P20, 230.7 million, representing 25.2 percent of total exports during 2016. South Africa received exports valued at P10, 917.9 million, accounting for 13.6 percent of total exports followed by Namibia with a value of P9, 298.3 million, which is 11.6 percent of total exports during the year under review.

The European Union (EU) received exports valued at P16, 895.0 million, representing 21.0 percent of total exports during the year under review. Belgium was the main destination of exports to the EU, having received 18.9 percent (P15, 169.6 million) of the total exports during the same period. The United Kingdom received 1.3 percent (P1, 006.1 million) of 2016 total exports.

Some of the top export destinations for 2016 were Canada, Switzerland, USA and Norway. Canada received 5.0 percent ( $P 4,010.5$ million), Switzerland and USA received 2.6 percent ( $P 2,054.4$ million) and 2.3 percent (P1, 821.3 million) respectively, of total exports during the period under review. Norway received 2.0
percent (P1, 599.2 million) of 2016 total exports.

### 3.2.1. Principal Exports Commodity Groups as a Percentage of Total Exports at Country or Region level

Discussions for this subsection are based on Table 3.2B which is generated from Table 3.2A. Table 3.2B presents Principal Exports Commodity Groups as a Percentage of Total Exports at Country or Region level.

Graphical representation of percentage distributions of exports by major trading partners during 2016 is given on Chart 3.2.

Asia as a regional block received total exports valued at P32, 646.4 million, 99.0 percent of those goods was diamonds. Diamond exports accounted for 98.4 percent (P11, 947.7 million) of all goods destined to India. Of all goods (P7, 774.4 million) destined to UAE, Diamonds constituted 98.8 percent (Table 3.2B).

South Africa received exports valued at P10, 917.9 million, with Diamonds contributing 56.5 percent (P6, 163.9 million) of total exports to the country. Machinery \& Electrical Equipment constituted 15.4 percent (P1, 684.1 million), Copper \& Nickel 6.4 percent (P702.4 million), Salt \& Soda Ash 4.5 percent (P486.5 million) and Meat \& Meat Products 4.4 percent (P476.8 million) of total exports to South Africa during 2016 (Table 3.2A and Table 3.2B). Namibia received exports valued at P9, 298.3 million, with Diamonds contributing 96.1 percent (P8, 934.4 million) of total exports received by that country during the year under review.

Diamonds constituted almost 100 percent (P4, 008.9 million) of $\mathrm{P} 4,010.5$ million worth of exports to Canada. Out of all the exports destined to Switzerland (P2, 054.4 ), 87.8 percent ( $\mathrm{P} 1,802.7$ million) was attributed to Diamonds while 12.0 percent ( P 245.8 million) was Gold. The USA received Diamonds accounting for 93.5 percent ( $\mathrm{P} 1,702.7$ million) of $\mathrm{P} 1,821.3$ million worth of exports. Almost all exports destined for Norway were attributable to the Copper \& Nickel commodity group, amounting for $\mathrm{P} 1,598.9$ million out of $\mathrm{P} 1,599.2$ million worth of exports destined for that country.

### 3.2.2. Principal Exports Commodity Groups by Region and Partner as a Percentage of Total Export Group

Table 3.2C gives major export groups at country or region level as a percentage of the total for a particular major export group. Discussions that follow are based on this table together with Table 3.2A.

During 2016, Diamonds was the major commodity group exported, constituting 88.1 percent (P70, 780.7 million) of P80, 336.5 million worth of total exports (Table 3.2B). Belgium was the main destination of Diamonds during the year, having received 21.4 percent ( $\mathrm{P} 15,167.3$ million), followed by India with 16.9 percent (P11, 947.7 million), Namibia with 12.6 percent (P8, 934.4 million) while the UAE received 11.0 percent (P7, 758.2 million). South Africa, Israel, Singapore and Canada received 8.7 percent (P6, 163.9 million), 6.9 percent (P4, 860.7 million, 6.4 percent ( $P 4,517.6$ million and 5.7 percent ( $P 4,008.9$ million) respectively.

Copper \& Nickel exports were mainly destined to Norway, having received 60.8 percent ( $\mathrm{P} 1,598.9$ million) of $P 2,631.1$ million. South Africa followed with 26.7 percent ( P 702.4 million) while Finland received 12.3 percent (P322.8 million) of the same commodity group.

During 2016, the SADC region received most of the Machinery \& Electrical Equipment (mainly re-exports) accounting for 92.5 percent ( $\mathrm{P} 1,910.6$ million) of $\mathrm{P} 2,066.0$ million. South Africa received most of exports of this commodity group, accounting for 81.5 percent ( $\mathrm{P} 1,684.1$ million), followed by Namibia with 4.8 percent (P98.6 million). Zambia and Zimbabwe received 2.8 percent (P58.8 million) and 1.6 percent (P32.3 million) respectively.

During 2016, most of the Meat \& Meat Products was destined for EU and SACU markets. In EU market, the UK received 26.9 percent (P309.0 million), the Netherlands received 14.0 percent (P161.2 million), Italy received 8.0 percent (P92.4 million) while Greece got 5.9 percent (P67.8 million) of total exports of this commodity group. In SACU, South Africa accounted for 41.5 percent (P476.8 million) of all the Meat \& Meat products exported to the entire world.

Chart 3.2: Total Exports by Region and Partner - 2016 (Percentage Distributions)

Note: Others includes all other trading partners not specified as in Table 3.2 A

## CHAPTER 4:

TRADE AT CHAPTER LEVEL

## CHAPTER 4: TRADE AT CHAPTER LEVEL

Trade at Chapter level presents international merchandise trade at the 2-digit level of the Harmonized Commodity Description and Coding System (HS Codes). This trade appears on this section for both imports and exports during 2016. Table 4 presents trade values together with the associated percentage distributions for the 99 chapters of the HS Codes, excluding Chapter 77 which is reserved for future customs use and Chapter 98 which was in the past utilized by Botswana for importation of vehicle parts for vehicle assembly, during the time when there were vehicle assembly plants in the country.

### 4.1. Total Imports by Chapter

Botswana imports almost all commodities found in all the chapters of the HS Codes. The discussion will be centered on chapters that contributed not less than 2.0 percent of total imports during 2016, and statistics associated with other chapters, can be viewed in Table 4.

During 2016, Chapter 71, consisting of "Natural or Cultured Pearls, Precious or Semi-Precious Stones and Precious Metals" registered the value of P18, 955.8 million, representing 28.3 percent of total imports (P66, 864.9 million) during the year. Chapter 27 which consists of "Mineral Fuels \& Associated Products" followed with 12.9 percent (P8, 648.6 million). Chapter 84, consisting of "Boilers, Machinery, Mechanical Appliances \& parts thereof" followed with 8.2 percent (P5, 450.1 million), while Chapter 87 , "Vehicles \& Parts" contributed 6.4 percent (P4, 311.4 million) to total imports during the year under review. Chapter 85 "Machinery \& Electrical Equipment, which comprises Sound Recorders \& Reproducers, Television image \& Parts" contributed 5.6 percent (P3, 736.3 million) to 2016 total imports.

Some of the chapters that contributed imports representing at least 2.0 percent of total imports during 2016 were Chapter 30, "Pharmaceutical Products" and Chapter 73, "Articles of Iron or Steel" which contributed 3.0 percent ( $\mathrm{P} 2,017.0$ million) and 2.4 percent ( $\mathrm{P} 1,614.5$ million) respectively, to total imports during the year under review.

### 4.2. Total Exports by Chapter

A few chapters contributed significantly to the total exports, with contributions in excess of one percent, while most chapters contributed less than 1.0 percent of the yearly total. Discussions on total exports at chapter level are confined to chapters that contributed not less than 1.0 percent of the yearly total during 2016 while others can be viewed in Table 4.

Total exports consisted mainly of minerals, especially rough diamonds. During 2016, Chapter 71 which comprises "Natural or Cultured Pearls, Precious or Semi-Precious Stones and Precious Metals" contributed 88.7 percent (P71, 219.3 million) of the total exports value of P80, 336.5 million. Chapter 75 , consisting of "Nickel \& Articles thereof" contributed 3.2 percent (P2, 609.1 million) of total exports during the same year. This was followed by chapter 85, comprising "Electrical Machinery \& Equipment and parts" accounting for 1.9 percent (P1, 508.8 million).

The other chapter that contributed exports representing more than 1.0 percent of total exports during 2016 was Chapter 2; consisting of "Meat and edible meat offal", representing 1.4 percent (P1, 147.8 million) of 2016 total exports.

Other Chapters together with associated percentage distributions can be viewed on Table 4.

## CHAPTER 5:

 MOSTIRADED COMMODITIES
## CHAPTER 5: MOST TRADED COMMODITIES

This section presents the most traded commodities during 2016, for both imports and total exports. As imports into Botswana are of a wide variety, the top 100 imported commodities during 2016 are presented in this report, while with regard to exports, only the top 50 are given since the top 50 exported commodities contribute over 90 percent of total exports. The top 100 imported commodities together with associated percentage distributions are presented in Table 5.1 while Table 5.2 presents the top 50 exported commodities.

### 5.1. The Most Imported Commodities

During 2016, the top most imported commodity was "Non-industrial diamonds unworked or simply sawn, cleaved or bruted", with a contribution of 22.3 percent (P14, 912.8 million) to total imports, followed by "Unsorted diamonds" with 5.3 percent (P3, 517.2 million). Most of the Diamonds imports are for aggregation process.

Distillate Fuel and Petrol contributed 5.0 percent (P3, 320.7 million) and 4.8 percent (P3, 185.3 million) respectively. Other individual commodities which are among the top 100 imports can be observed in Table 5.1.

### 5.2. The Most Traded Exports

In 2016, "Non-industrial diamonds unworked or simply sawn, cleaved or bruted" contributed 82.2 percent (P66, 015.0 million) to total exports during the year. "Non-industrial diamonds, not mounted or set" followed with 5.5 percent (P4, 394.9 million). Other commodities which contributed more than 1.0 percent to total exports were "Nickel Mattes" with 3.2 percent (P2, 609.1 million) and "Ignition wiring sets and other wiring sets for vehicles \& aircraft" with 1.5 percent (P1, 245.2 million). Other commodities can be viewed in Table 5.2.

CHAPTER 6.
TRADE BYMODE OF TRANSPORT

## CHAPTER 6. TRADE BY MODE OF TRANSPORT

The mode of transport here refers to the means of transporting goods in and out of Botswana. Road, Air and Rail proved to be the most popular mode of transport for Botswana International Merchandise Trade.

### 6.1. Imports and Exports by Mode of Transport

During 2016, Road transport accounted for more than half of goods imported into Botswana in value terms. Imports representing 52.9 percent (P35, 380.2 million) of total imports reached Botswana by road. Air and Rail transport accounted for 28.1 percent ( $\mathrm{P} 18,762.6$ million) and 19.0 percent ( $\mathrm{P} 12,712.7$ million) respectively, of total imports during the year under review.

Botswana Exports mainly use Air as means of transport. This is because exports value is heavily dependent on high valued diamonds, which are transported by Air. Air Transport accounted for 89.7 percent (P72, 091.0 million) of total exports from Botswana during 2016. Road transport followed with 9.7 percent (P7, 768.7 million) while goods transported by Rail represented 0.6 percent (P471.7 million) of total exports during the year under review.

CHAPTER 7:
TRADE BY OTHER COMMODFIF CLASSIFICATIONS

## CHAPTER 7: TRADE BY OTHER COMMODITY CLASSIFICATIONS

This chapter gives trade by two other commodity classifications, which are based on the Harmonized Commodity Description \& Coding System (HS Codes). The commodity classifications discussed here are the Standard International Trade Classification (SITC Revision 3) and the Broad Economic Categories (BEC Revision $3)$.

### 7.1. Standard International Trade Classification (SITC)

The Standard International Trade Classification is a statistical classification of commodities entering external trade, it is designed to provide the commodity aggregates required for purposes of economic analysis, to facilitate the international compilation of trade by commodity data. The SITC has 3,118 basic headings and sub headings which are assembled in 261 groups, 67 divisions and 10 sections.

This report uses SITC Revision 3, which is based on Harmonized Commodity Description \& Coding System of 2012 (HS 12). Figures presented here are for the Sections and Divisions only. Table 7.1A gives imports while Table 7.1B presents exports.

### 7.1.1. Imports by Standard International Trade Classification (SITC) - 2016

During 2016, imports recorded a total of P66, 864.9 million. Manufactured Goods classified chiefly by material (Section 6) contributed 37.5 percent (P25, 064.5 million). Divisions that contributed the most to this Section were Division 66, Non-metallic Mineral Manufactures with 29.9 percent (P19, 981.0 million) of total imports; followed by Division 69, Manufactures of Metals Not Elsewhere Specified (NES) with 2.7 percent (P1, 772.1 million); Division 67, Iron \& Steel with 1.5 percent (P989.7 million) and Division 62, Rubber Manufactures NES, with 1.0 percent at the value of P 677.9 million.

Section 7, which comprises Machinery \& Transport Equipment contributed 21.3 percent (P14, 257.7 million) of total imports during the year under review. Division 78, Road vehicles (including air-cushion vehicles) contributed the most in this section with 6.3 percent (P4, 181.7 million) to total imports; followed by Division 77, "Electrical machinery, apparatus \& appliances and electrical parts thereof" with 3.7 percent (P2, 448.9 million). Division 72, "Machinery specialized for particular industries" contributed 3.1 percent (P2, 091.7 million). Division 74, "General industrial machinery and equipment, NES, and machine parts, NES" and Division 76, "Telecommunications and sound-recording and reproducing apparatus and equipment" accounted for 3.0 percent ( $\mathrm{P} 2,001.1$ million) and 1.8 percent ( $\mathrm{P} 1,211.5$ million) respectively, of total imports during the year.

The other section that contributed significantly to total imports is Section 3 which comprises Mineral Fuels, Lubricants \& Related Materials. This Section contributed 12.9 percent (P8, 624.7 million) to total imports during the year under review. The Divisions that contributed mostly in this Section were Division 33, "Petroleum, Petroleum Products \& Related Materials" with 10.4 percent (P6, 962.4 million) and Division 35, "Electric Current" with 2.3 percent (P1, 546.3 million) of 2016 total imports. Other sections can be viewed on Table 7.1A

Chart 7.1A: Imports by Standard International Trade Classification (SITC) - 2016

Note: NES= Not Elsewhere Specified
Goods NES =All other commodities not specified as in Table 7.1A

### 7.1.2. Exports by Standard International Trade Classification (SITC) - 2016

During 2016, the Section that contributed most to total exports was Section 6, which consists of "Manufactured Goods classified chiefly by material". This Section accounted for 88.6 percent (P71, 165.3 million) of total exports (P80, 336.5 million) during the year. The Division that contributed the most in this Section was Division 66 which comprises "Non-metallic mineral manufactures not elsewhere specified". This Division contributed 87.9 percent (P70, 597.5 million) to total exports during the year. This is the Division that contains rough diamonds.

Section 2, consisting of "Crude Materials inedible, excluding Fuels" followed with a contribution of 4.2 percent (P3, 368.0 million) to total exports during the year under review. The Division that contributed the most in this section was Division 28, which comprises "Metalliferous Ores and Scrap Metal", with 3.3 percent (P2, 684.3 million) of total exports during 2016. This is the Division that contains Copper/Nickel that makes part of major exports of Botswana.

During 2016, "Machinery \& Transport Equipment" (Section 7) contributed 3.2 percent (P2, 593.9 million) to total exports, with Division 77, "Electrical Machinery, Apparatus \& Appliances NES" contributing 1.8 percent ((P1, 427.9 million) of total exports during the year. Section 0 consisting of "Food \& Live Animals" represented 1.7 percent ( $\mathrm{P} 1,339.5$ million) of total exports during the year under review, with Division 01, "Meat \& Meat Preparations" accounting for 1.4 percent (P1, 150.4 million).

The other section which contributed more than 1.0 percent is "Chemicals \& Related Products, NES" (Section 5) with 1.2 percent (P931.3 million). Other sections can be viewed in Table 7.1B

Chart 7.1B: Exports by Standard International Trade Classification (SITC) - 2016

Note: NES = Not Elsewhere specified
Goods NES*=All other commodities not specified as in Table 7.1B

### 7.2. Broad Economic Categories (BEC)

The Broad Economic Categories classification was designed to serve as a means for converting trade data compiled in terms of SITC into end use categories that were meaningful within the framework of System of National Accounts (SNA). These categories are approximating the three basic classes of goods in SNA; namely capital goods, intermediate goods and consumption goods.

Broad Economic Categories has 19 basic categories that can be aggregated to approximate the three basic classes of goods, thus permitting trade statistics to be considered jointly with other sets of general economic statistics such as national accounts and industrial statistics; for national, regional and global economic analysis. The discussion here is only based on sections and divisions of the Broad Economic Categories.

### 7.2.1. Imports by Broad Economic Categories (BEC)

During 2016, imports by Broad Economic Categories, consisted mainly of "Industrial Supplies NES" (Section 2). This Section contributed 44.9 percent (P30, 024.7 million) of total imports (P66, 864.9 million) during the year (Table 7.2). The highest contribution in this Section came from Division 21; "Industrial supplies, NES, primary form", with 30.3 percent (P20, 290.5 million) of total imports during the year under review.
"Capital Goods (Excluding Transport Equipment) Parts \& Accessories", Section 4, followed with 13.4 percent (P8, 971.6 million) of total imports during 2016, with 8.5 percent (P5, 656.4 million) attributable to Division 41; "Capital Goods (Excluding Transport Equipment)".

Section 3, "Fuel \& Lubricants", constituted 12.8 percent (P8, 571.3 million) of total imports during the year. This contribution was almost all attributable to Division 32 "Fuel \& Lubricants, Processed" with a contribution of 11.5 percent at the value of P7, 718.3 million.

Section 6, "Consumer Goods NES" constituted 10.2 percent (P6, 809.4 million) during 2016, with Division 63 and Division 62; "Non-Durable Consumer Goods" and "Semi-durable Consumer Goods NES" making contributions of 5.7 percent ( $\mathrm{P} 3,808.5$ million) and 3.3 percent ( $\mathrm{P} 2,197.1$ million) respectively.
"Food \& Beverages", Section 1 constituted 9.3 percent (P6, 224.3 million) of total imports during 2016, with 6.7 percent (P4, 487.7 million) attributable to Division 12; "Food and Beverages, Processed". Division 11; "Food and Beverages in Primary Form" contributed 2.6 percent (P1, 736.7 million).

Section 5, "Transport Equipment, Parts \& Accessories" constituted 9.0 percent (P5, 985.6 million) of total imports during 2016, with Divisions 52, 53 and 51; "Other Transport Equipment", "Parts \& accessories of transport equipment " and "Passenger motor cars" contributing 3.4 percent (P2, 299.0 million), 2.9 percent(P1, 946.6 million) and 2.6 percent ( $\mathrm{P} 1,740.0$ million) respectively, to total imports during the year.

Contributions made by other Sections and Divisions of the Broad Economic Categories can be observed on Table 7.2 and Chart 7.2 A.

Chart 7.2A: Imports by Broad Economic Categories (2016)

Note: NES= Not Elsewhere Specified

### 7.2.2. Exports by Broad Economic Categories (BEC)

It is also of interest to look at the commodities that are exported by Broad Economic Categories. This presentation will give a country an idea with regard to which goods are exported unprocessed or in primary form. The country can then as a result make plans to set up processing industries to create employment and at the same time end up exporting finished goods which will bring in more revenue. This data is also presented in Table 7.2 together with the imports data.

Table 7.2 shows that during 2016, over 90 percent of total exports were "Industrial Supplies NES"; Section 2. The Section contributed 94.3 percent (P75, 782.4 million) to total exports (P80, 336.5 million), with 83.2 percent (P66, 870.0 million) attributable to Division 21, "Industrial Supplies in primary form", and 11.1 percent (P8, 912.4 million) contributed by Division 22, "Industrial Supplies, Processed".

Section 5, "Transport Equipment, Parts \& Accessories thereof", contributed 2.3 percent (P1, 871.5 million) with 1.8 percent (P1, 463.5 million) attributable to Division 53 "Parts \& accessories of transport equipment".

Section 1, Food \& Beverages made a contribution of 1.7 percent (P1, 333.8 million) to total exports during the year, with 1.6 percent (P1, 272.4 million) attributable to Division 12, "Food and Beverages processed". Contributions made by other Sections and Divisions of the Broad Economic Categories can be observed in Table 7.2 and on Chart 7.2B.

Table 5.1: Top 100 Imported Commodities - 2016 (Million Pula)

| Rank | HS CODE | Description | Value | \% |
| :---: | :---: | :---: | :---: | :---: |
| 1 | 71023100 | Non-industrial diamonds unworked or simply sawn, cleaved or bruted | 14,912.80 | 22.3 |
| 2 | 71021000 | Unsorted diamonds | 3,517.20 | 5.3 |
| 3 | 27101230 | Distillate fuel | 3,320.70 | 5 |
| 4 | 27101202 | Petrol | 3,185.30 | 4.8 |
| 5 | 30049090 | Other medicaments consisting of mixed or unmixed products | 1,724.80 | 2.6 |
| 6 | 27160000 | Electrical energy | 1,546.30 | 2.3 |
| 7 | 87032390 | Other vehicles of a cylinder capacity exceeding 1500cmcb but not exceeding 3000cmcb NES | 1,265.80 | 1.9 |
| 8 | 26040000 | Nickel ores and concentrates | 895 | 1.3 |
| 9 | 87043190 | Other motor vehicles for the transport of goods with G.V.M. not exceeding $5 \dagger$ NES | 685.6 | 1 |
| 10 | 84314990 | Other parts of boring or sinking machinery of subheading no.8430.41 or 8430.49 NES | 568.4 | 0.9 |
| 11 | 25232900 | Portland cement (excl. white) | 536.8 | 0.8 |
| 12 | 71023900 | Non-industrial diamonds, not mounted or set, NES | 465.6 | 0.7 |
| 13 | 10059010 | Dried kernels or grains fit for human consumption, not further prepared or processed | 458.3 | 0.7 |
| 14 | 22029090 | Other non-alcoholic beverages NES | 375.7 | 0.6 |
| 15 | 17019900 | Cane or beet sugar, in solid form, NES | 372 | 0.6 |
| 16 | 73089090 | Other structures of steel/iron NES | 359.8 | 0.5 |
| 17 | 88022000 | Aeroplanes and other aircraft, NES, of an unladen weight $=<2000 \mathrm{~kg}$ | 343.7 | 0.5 |
| 18 | 85176200 | Machines for reception \&transmission or regeneration voice image, data incl switch | 319.8 | 0.5 |
| 19 | 85171210 | Designed for use when carried in the hand or on the person | 306.6 | 0.5 |
| 20 | 87089990 | Other parts and accessories of motor vehicles of heading no.87.01 to 87.05 NES | 270.4 | 0.4 |
| 21 | 34012000 | Soap in other forms, NES | 226.4 | 0.3 |
| 22 | 44071000 | Coniferous wood sawn or chipped lengthwise, sliced or peeled, >6mm thick | 218.1 | 0.3 |
| 23 | 33049990 | Other beauty or make up preparations for the care of the skin | 207.9 | 0.3 |
| 24 | 39041000 | Polyvinyl chloride, not mixed with other substances, in primary forms | 203.4 | 0.3 |
| 25 | 39269090 | Other articles of plastics and articles of other materials of heading 39.01 to 39.14 NES | 178.4 | 0.3 |
| 26 | 84295900 | Self-propelled bulldozers, excavators, NES | 177.3 | 0.3 |
| 27 | 84713000 | Portable digital ADP machines, weight < = 10 kg, comprising at least CPU , keyboard \& display | 169 | 0.3 |
| 28 | 87032490 | Other vehicles of a cylinder capacity exceeding 3000cm3 | 168.3 | 0.3 |
| 29 | 23099092 | Other preparations of a kind used in animal feeding | 167.9 | 0.3 |
| 30 | 20099010 | Fruit juices of mixtures of juices | 165.9 | 0.2 |
| 31 | 85443000 | Ignition wiring sets and other wiring sets for vehicles, aircraft | 164.6 | 0.2 |
| 32 | 27101252 | Other prepared lubricating oils | 160.3 | 0.2 |
| 33 | 10059090 | Other maize | 157.5 | 0.2 |
| 34 | 84749000 | Parts of machinery of 84.74 | 156.9 | 0.2 |
| 35 | 10011900 | Other durum wheat | 156.8 | 0.2 |
| 36 | 38220000 | Diagnostic or lab. reagents on a backing; prepared diagnostic or lab .reagents excl. Ch. 30 | 156.5 | 0.2 |
| 37 | 15121910 | Marketed and supplied for use in the process of cooking food | 152.5 | 0.2 |
| 38 | 90189000 | Instruments and apparatus, NES for medical, surgical... sciences | 152.1 | 0.2 |
| 39 | 73269090 | Other articles of iron or steel wire NES | 149 | 0.2 |
| 40 | 10063000 | Semi-milled or wholly milled rice | 146.7 | 0.2 |
| 41 | 24022090 | Other cigarettes containing tobacco | 144.9 | 0.2 |
| 42 | 87021090 | Other motor vehicles for the transport of ten or more persons, including driver | 143.5 | 0.2 |
| 43 | 21039090 | Other sauces \& preparations thereof not elsewhere specified | 137.1 | 0.2 |
| 44 | 31023000 | Ammonium nitrate | 133 | 0.2 |
| 45 | 73030000 | Tubes, pipes and hollow profiles, of cast iron | 131.7 | 0.2 |
| 46 | 99990100 | New personal imports | 129.6 | 0.2 |
| 47 | 17049000 | Sugar confectionery (incl. white chocolate), not containing cocoa, NES | 129.2 | 0.2 |
| 48 | 87019090 | Other tractors | 129.1 | 0.2 |
| 49 | 84122100 | Hydraulic power engines and motors, linear acting (cylinders) | 128.4 | 0.2 |
| 50 | 09109900 | Other spices, NES | 127.6 | 0.2 |

| Rank | HS CODE | Description | Value | \% |
| :---: | :---: | :---: | :---: | :---: |
| 51 | 87059000 | Special purpose motor vehicles, NES (e.g. breakdown lorries, etc.) | 126.4 | 0.2 |
| 52 | 85472000 | Insulating fittings of plastics for electrical machines | 122.4 | 0.2 |
| 53 | 87032290 | Other vehicles of cylinder capacity exceeding 1000cmsq but not exceeding 1500cmsq NES | 120.5 | 0.2 |
| 54 | 40119410 | Other tyres for construction/industrial machine, of rim > 61cm NES | 117.8 | 0.2 |
| 55 | 21069090 | Other food preparations NES | 117.1 | 0.2 |
| 56 | 49019900 | Printed books, brochures, leaflets and similar printed matter, NES | 112.7 | 0.2 |
| 57 | 20098950 | Other fruits juices | 112.5 | 0.2 |
| 58 | 10019900 | Other wheat and meslin | 110.8 | 0.2 |
| 59 | 85442090 | Other co-axial cable \& other co-axial electric conductors NES. | 110.7 | 0.2 |
| 60 | 84219990 | Other parts of centrifuges, including centrifugal dryers | 110.1 | 0.2 |
| 61 | 40116910 | Other pneumatic tyres of rubber NES | 110.1 | 0.2 |
| 62 | 34022000 | Washing and cleaning preparations, put up for retail sale | 109.8 | 0.2 |
| 63 | 85444990 | Other electric conductors, for a voltage < 1000V | 109 | 0.2 |
| 64 | 22030090 | Other beer made from malt | 108.6 | 0.2 |
| 65 | 64059090 | Other footwear of materials NES | 108 | 0.2 |
| 66 | 85044000 | Static converters | 105 | 0.2 |
| 67 | 04031000 | Yoghurt | 104.1 | 0.2 |
| 68 | 87042181 | Other, double-cab ,of mass<2000kg or GVM <3500kg or of mass<1600kg or GVM<3500kg per chasis | 103.6 | 0.2 |
| 69 | 84129000 | Parts of engines and motors of 8412.10 to 8412.80 | 103.1 | 0.2 |
| 70 | 84138100 | Pumps for liquids, NES | 100.6 | 0.2 |
| 71 | 04012009 | Other milk, whether or not containing added minerals, vitamins, enzymes \& similar additive | 99.8 | 0.1 |
| 72 | 84834000 | Gears and gearing; ball or roller screws; gear boxes and other speed changers | 99.4 | 0.1 |
| 73 | 87042290 | Other vehicles for goods with GVM exceeding 5t but not exceeding 20t NES | 99.2 | 0.1 |
| 74 | 85389090 | Other parts suitable for use with the apparatus of heading no.85.35,85.36 or 85.37 NES | 98.4 | 0.1 |
| 75 | 84741000 | Sorting, screening, separating or washing machines for earth, stone | 96.8 | 0.1 |
| 76 | 86050000 | Railway/tramway passenger coaches, not self-propelled; luggage vans | 96.5 | 0.1 |
| 77 | 84799000 | Parts of machines having individual functions, NES | 96.3 | 0.1 |
| 78 | 23040000 | Oil-cake and other solid residues, of soya-bean | 96.1 | 0.1 |
| 79 | 48191000 | Cartons, boxes and cases, of corrugated paper or paperboard | 96 | 0.1 |
| 80 | 19023000 | Other pasta, NES | 95 | 0.1 |
| 81 | 27101201 | Aviation spirit | 95 | 0.1 |
| 82 | 85369020 | Other apparatus identifiable for use solely or principally with motor vehicles | 94.4 | 0.1 |
| 83 | 84071000 | Aircraft spark-ignition piston engines | 93.9 | 0.1 |
| 84 | 44031000 | Wood in the rough..., treated with paint, stains, creosote, etc. | 92.4 | 0.1 |
| 85 | 87042190 | Other dumpers for off highway use with G.V.M not exceeding $5 \dagger$ NES | 90.9 | 0.1 |
| 86 | 87033390 | Other vehicles of cylinder capacity exceeding 2500 cmsq NES | 89.7 | 0.1 |
| 87 | 74081100 | Wire of refined copper, maximum cross-sectional dimension $>6 \mathrm{~mm}$ | 88.3 | 0.1 |
| 88 | 44182000 | Doors and their frames and thresholds, of wood | 87.2 | 0.1 |
| 89 | 38249090 | Other chemical products and mixtures NES or included | 85.3 | 0.1 |
| 90 | 19041000 | Prepared foods obtained by the swelling or roasting of cereals | 84.9 | 0.1 |
| 91 | 84733000 | Parts and accessories of the machines of 84.71 | 84.9 | 0.1 |
| 92 | 85444290 | Other fitted with connectors | 84.5 | 0.1 |
| 93 | 84139100 | Parts of pumps for liquids | 83.6 | 0.1 |
| 94 | 36020000 | Prepared explosives, (excl. propellent powders) | 83.4 | 0.1 |
| 95 | 93010010 | Rifles, carbines and muskets | 83 | 0.1 |
| 96 | 08081000 | Apples, fresh | 82.8 | 0.1 |
| 97 | 085369090 | Other electric apparatus for switching or protecting elec. circuits NES | 82 | 0.1 |
| 98 | 94041000 | Mattress supports | 81.7 | 0.1 |
| 99 | 94054090 | Other electric lamps and lighting fittings NES | 81.2 | 0.1 |
| 100 | 19053100 | Sweet biscuits | 80.4 | 0.1 |
| Top 100 Imports |  |  | 45,126.20 | 67.5 |
| Other Goods |  |  | 21,738.60 | 32.5 |
| Total Imports |  |  | 66,864.90 | 100 |

Table 5.2: Top 50 Exported Commodities - 2016 (Million Pula)

| Rank | HS Code | Description | Value | \% |
| :---: | :---: | :---: | :---: | :---: |
| 1 | 71023100 | Non-industrial diamonds unworked or simply sawn, cleaved or bruted | 66,015.00 | 82.2 |
| 2 | 71023900 | Non-industrial diamonds, not mounted or set, NES | 4,394.90 | 5.5 |
| 3 | 75011000 | Nickel mattes | 2,609.10 | 3.2 |
| 4 | 85443000 | Ignition wiring sets and other wiring sets for vehicles, aircraft... | 1,245.20 | 1.5 |
| 5 | 02013090 | Other boneless meat of bovine animals, fresh or chilled | 575.1 | 0.7 |
| 6 | 02023090 | Other boneless meat of bovine animals frozen | 564.6 | 0.7 |
| 7 | 28362000 | Disodium carbonate | 439 | 0.5 |
| 8 | 71081200 | Unwrought gold (incl. gold plated with platinum), non-monetary | 424.4 | 0.5 |
| 9 | 71022100 | Industrial diamonds unworked or simply sawn, cleaved or bruted | 282.6 | 0.4 |
| 10 | 25010090 | Other salt (including table salt and denatured salt) and pure sodium chloride, whether or not in aqueous solution or containing added anti - caking or free -flowing agents; sea water | 280 | 0.3 |
| 11 | 39173990 | Other tubes, pipes, hoses of plastic NES | 143.8 | 0.2 |
| 12 | 30023000 | Vaccines for veterinary medicine | 142.7 | 0.2 |
| 13 | 87032390 | Other vehicles of a cylinder capacity exceeding 1500 cmcb but not exceeding 3000cmcb NES | 112.3 | 0.1 |
| 14 | 63026090 | Toilet linen | 96.8 | 0.1 |
| 15 | 71021000 | Unsorted diamonds | 88.1 | 0.1 |
| 16 | 84314990 | Other parts of boring or sinking machinery of subheading no.8430.41 or 8430.49 NES | 83.1 | 0.1 |
| 17 | 27011200 | Bituminous coal, not agglomerated | 74.5 | 0.1 |
| 18 | 39172300 | Tubes, pipes and hoses, rigid, of polymers of vinyl chloride | 63.8 | 0.1 |
| 19 | 73089090 | Other structures of steel/iron NES | 61.4 | 0.1 |
| 20 | 58081000 | Braids in the piece | 60 | 0.1 |
| 21 | 87041090 | Other dumpers designed for off-highway use NES | 52.5 | 0.1 |
| 22 | 62046210 | Women's or girls trousers | 49.3 | 0.1 |
| 23 | 41012900 | Hides and skins of bovine animals, fresh or wet-salted, NES | 48.1 | 0.1 |
| 24 | 48194000 | Sacks and bags, including cones of paper, paperboard, NES | 44.9 | 0.1 |
| 25 | 84122100 | Hydraulic power engines and motors, linear acting (cylinders) | 44.7 | 0.1 |
| 26 | 72223000 | Stainless steel bars and rods, NES | 42.5 | 0.1 |
| 27 | 85071010 | Other lead acid | 40.7 | 0.1 |
| 28 | 85442090 | Other co-axial cable \& other co-axial electric conductors NES | 39.5 | 0 |
| 29 | 87032190 | Other vehicles of cylinder capacity not exceeding 1000cm cube NES | 38.7 | 0 |
| 30 | 48202000 | Exercise-books | 37.7 | 0 |
| 31 | 68101100 | Building blocks and bricks, of cement or artificial stone or concrete | 36.9 | 0 |
| 32 | 34011900 | Soap and organic surface-active products in bars, etc., NES | 35.5 | 0 |
| 33 | 88022000 | Aeroplanes and other aircraft, NES, of an unladen weight $=<2000 \mathrm{~kg}$ | 33.6 | 0 |
| 34 | 84295900 | Self-propelled bulldozers, excavators NES | 32 | 0 |
| 35 | 13021990 | Other goods of heading 13.02 NES | 28.4 | 0 |
| 36 | 73269090 | Other articles of iron or steel wire NES | 28.1 | 0 |
| 37 | 87089990 | Other parts and accessories of motor vehicles of heading no.87.01 to 87.05 NES | 25.6 | 0 |
| 38 | 30049090 | Other medicaments consisting of mixed or unmixed products | 25.1 | 0 |
| 39 | 84592900 | Drilling machines for removing metal, NES | 25.1 | 0 |
| 40 | 87042190 | Other dumpers for off highway use with G.V.M not exceeding $5 \dagger$ NES | 24.4 | 0 |
| 41 | 87059000 | Special purpose motor vehicles, NES (e.g. breakdown lorries, etc.) | 22.3 | 0 |
| 42 | 74040000 | Copper waste and scrap | 21.6 | 0 |
| 43 | 27100026 | Illuminating kerosene | 20.6 | 0 |
| 44 | 07102200 | Shelled or unshelled beans, frozen | 19.8 | 0 |
| 45 | 27101202 | Petrol | 19.6 | 0 |
| 46 | 62034210 | Men's or boys trousers | 19.1 | 0 |
| 47 | 84248100 | Machinery for projecting liquids/powders for agriculture | 18.7 | 0 |
| 48 | 88039000 | Parts of aircraft (excl. aeroplanes/helicopters) | 17.8 | 0 |
| 49 | 25232900 | Portland cement (excl. white) | 16.5 | 0 |
| 50 | 07133990 | Other beans (Vigna spp, Phaseolus spp) | 16.3 | 0 |
| Top 50 Exports |  |  | 78,682.30 | 97.9 |
| Other Goods |  |  | 1,654.20 | 2.1 |
|  | Total Exports |  | 80,336.50 | 100 |

Table 6: Imports and Total Exports by Mode of Transport, Value and Percentage Distribution -2016 (Million Pula)

| Flow Type | Imports |  | Total Exports |  |

## 8. TECHNICAL NOTES

International Merchandise Trade Statistics (IMTS) refers to external trade in goods only. IMTS records all transactions of goods between the compiling country and the rest of the world. What is measured in IMTS includes the monetary values and quantities of goods that are imported into and exported out of the country. The primary source of international merchandise trade data is the Customs \& Excise Division transactions. In some countries informal trade surveys are carried out to augment customs data. Importers and exporters surveys are also carried out in some countries either to segment or to cross check customs data.

With regard to Botswana IMTS, currently customs \& excise transactions are the sole source of IMTS. The Customs \& Excise Division of Botswana Unified Revenue Service (BURS) is responsible for data capture at both computerized and manual borders, and the monthly raw data files are then transferred to Statistics Botswana for data processing.

IMTS are compiled by the International Merchandise Trade Statistics Section of Statistics Botswana. International Merchandise Trade refers to external trade in goods only. International Service Trade Statistics (ISTS) are however not compiled by this section. The primary source of international merchandise trade data is the Customs \& Excise Division at the Botswana Unified Revenue Service (BURS). The Customs \& Excise Division is responsible for data capture for both computerized and manual borders, and the monthly raw data files are transferred to Statistics Botswana for data processing.

Until the April 2009 Monthly Digest, Botswana was practicing Relaxed Special Trade Type. The Relaxed Special Trade Type takes into account goods that are exported or imported for inward or outward customs processing while the Strict Special Trade Type does not include the same. Strict Special Trade Type comprises imports for home consumption, permanent exports, re-exports and goods cleared out of warehouse (ex-warehouse) only.

In June 2009, the Botswana External Trade Database was revised to cater for General Trade Type as per the United Nations Statistics Division (UNSD) recommendations. The General Trade Type gives complete coverage of external trade as compared to the Special Trade Type. As a result of this, trade reported in the monthly digests for May 2009 onwards is based on the General Trade Type.

Imports are valued CIF (cost, insurance \& freight) while exports are valued FOB (free on board). The value of imports includes transport and insurance costs to the importing country. The Exports value consists only of the value of goods as they leave the exporting country.

### 8.1. Time of Recording of Trade

IMTS is compiled using date of recording of trade as opposed to date of assessment of goods by customs. This means that as goods cross the border, trade is recorded and this is the reference month for compilation of IMTS. Some of these goods may however be held by customs for some time pending final assessment for tax or duty purposes.

If the final assessment is done later, for example two or three months, or even more, after the goods had crossed the border, the affected trade will then update trade for the particular month when the goods crossed the border, therefore it does not form part of trade for the month during which the final assessment was done. This is mostly common with imports. Revision of data for the month preceding the one under review will normally show high values as compared to revisions for other months due to more goods (from the previous month) being released after final assessment.

### 8.2. Concepts and Definitions

Domestic Exports: These are goods originating from the compiling country, being permanently exported out of the country for consumption in the outside world. This includes products from customs inwards processing; for example, if a country imports wheat, processes the wheat into bread flour and exports the bread flour and bye products from the milling process, these will all leave the country as domestic exports. Re - Exports: These are exports of foreign goods that were initially recorded as imports into the compiling country. These goods are exported in the same state that they came in except for wear and tear. An example will be re-exportation of a motor vehicle that was initially imported into the compiling country and after being used it is now being exported to a foreign country. Total exports: This is the sum of domestic exports and re-exports. Imports: These are goods imported from the outside world, into the compiling country, for local consumption. This includes re-importation of locally produced goods that were initially exported and are now being imported back into the country.

Trade Balance (Net Export): This refers to the total value of goods exported minus the total value of goods imported by a given economy in a given period of time. A positive trade balance (trade surplus) indicates that a country is exporting more in value terms than it is importing. A negative trade balance (trade deficit) indicates that the country is importing more than it is exporting.

### 8.3. Treatment of Diamonds from Aggregation Process

In July 2012, the Diamond Trading Company International which was undertaking aggregation of diamonds relocated from the United Kingdom to Botswana. This meant that the process of aggregation of diamonds was now to be done in Botswana. Following the relocation, initially it was not clear how this trade was to be recorded as there was no prior common understanding of the processes involved between all the relevant parties. After thorough discussions with key stakeholders, Statistics Botswana decided to record this trade as imports for processing and that export of the same after aggregation be recorded as direct permanent exports. This was based on IMTS 2010 Compilers' Manual (Page 225) and IMTS 2010 Concepts \& Definitions; Page 16; Paragraph 1.20 concept that mixing of goods of different qualities to produce goods of a new quality is part of processing in compilation of IMTS.

### 8.3.1. Sorting out Diamonds imports

These imports will mainly be from Canada, Namibia and South Africa. Some of these may include diamonds that were originally bought from Botswana and are being sold back to Botswana. The original declaration will not indicate whether the consignment is a mixture of diamonds from various countries. However, a follow-up document, referred to as "attached document" will show a disaggregation of these imports according to the various countries that contributed to the consignment.
I. In case the consignment was from one country, this will be recorded as imports into Botswana from that particular country,
II. In case the consignment was from various countries, the recording of these imports will be according to the various countries that contributed to the consignment,
III. If part of the consignment was originally from Botswana, that part is recorded as re-import and will form part of total imports.

### 8.3.2. Sorting out Diamonds exports

These exports will be from the aggregation process and will consist of exports of Botswana origin and exports of diamonds that were originally imported. The original declaration will give an aggregated export which will be a consignment bought by an individual trader. This consignment will consist of diamonds of the same colour, shape and size but originating from various countries. The "attached document", giving a disaggregation of the consignment in value and carats by countries that contributed, will be used to record trade accordingly. As per IMTS 2010 Concepts \& Definitions, goods resulting from processing are to be included in merchandise trade at their full value and as direct permanent exports (Domestic exports) in case they are exported (IMTS Concepts \& Definitions; page 16, paragraph 1.20). As a result of this, diamonds that originated from outside Botswana as well as those originating from Botswana are recorded as direct permanent exports or domestic exports.

Both diamonds originating from Botswana and those that originated from elsewhere have always been recorded under Domestic Exports. Values for diamonds that originated from elsewhere can be provided separately if needed.

### 8.4. Exclusions from IMTS

### 8.4.1. Goods in Transit

This is trade that is simply passing through the compiling country solely for the purpose of being transported to another country.

### 8.4.2. Goods temporarily admitted or dispatched

These are goods that at the time of admission/dispatch, are intended to stay in the receiving country temporarily and that after their stay they will be returned in the same state. These goods include display equipment for trade fairs and exhibitions, commercial samples, means of transport, containers, equipment for working etc.

### 8.4.3. Monetary Gold

This is gold to which the monetary authorities have title and is held as reserve assets.
8.4.4. Issued banknotes and securities and coins in circulation

These goods represent evidence of financial claims and are excluded from IMTS
The above list of exclusions from IMTS is however not exhaustive and only a few that are common, simple, straightforward and easy to understand have been picked as examples.

## 9. APPENDICES
